KLAT / EDITORIAL DESIGN SYSTEM 01

40 SPREADS

for a picture-led fashion magazine

High fashion / Contemporary / Couture / Heritage

IMAGE : TEXT = 70:30 OR 60:40

PURPOSE

A system, not a stack of references.

This guide translates recurring editorial behaviours across historic glossies, independent fashion publications, long-form industry magazines, couture archives, and society-led heritage titles into a flexible visual language for KLAT.

EDITORIAL PREMISE

KLAT treats clothing as evidence of identity, labour, culture, and inheritance. The image creates desire; the text earns trust.

RATIO RULE

Every blueprint reserves roughly 60–70% of the spread for imagery and 30–40% for text, including captions, credits, labels, and negative space assigned to reading.

ORIGINALITY RULE

Use the principles, not another title's logo, cover device, exact grid, or signature styling. KLAT should feel literate in magazine history without impersonating it.

FORMAT ASSUMPTION

A4 landscape diagrams represent an A4 portrait two-page spread. Rebuild at your final trim size with proper bleed and binding compensation.

SHARED STRATEGY

Communicate KLAT's view of fashion to visually sophisticated readers in a collectible print object, so they pause, feel, and understand—while keeping photography dominant and editorial text genuinely useful.

HIGH FASHION

1. The glossy: image as authority

Stop the eye

Vogue describes its history through groundbreaking image-making and collaborations that create culturally resonant fashion images.

Sources 1, 3

Crop creates motion

Brodovitch's Bazaar used bleed, white space, bold typography, and obsessive cropping to produce cinematic page rhythm.

Source 2

The useful tension

Fashion photography continually negotiates artistic fantasy and the need to show clothes; KLAT should decide which function leads on every spread.

Source 3

KLAT translation

Use fewer, stronger frames. Let one image establish desire; use type to direct interpretation rather than decorate the photograph.

Design synthesis

THE IMAGE MUST DO MORE THAN SHOW THE CLOTHES. IT MUST CREATE A WORLD WORTH ENTERING.

2. The independent: image as provocation

Culture, not category

Dazed positions fashion beside art, music, film, politics, and ideas; the hybrid is the editorial model.

Source 4

Identity as method

i-D began as a punk-era, typewritten zine and frames style through emerging talent and personal identity.

Source 5

Documentary credibility

Street-cast portraits and real environments can carry as much fashion authority as elaborate sets when captions provide context.

Sources 3, 5

KLAT translation

Use roughness only where the subject is genuinely immediate. Keep the grid exact beneath the energy.

Design synthesis

CONTEMPORARY DOES NOT MEAN RANDOM. ITS BEST DISORDER IS EDITED, CULTURAL, AND SPECIFIC.

LONG-FORM

3. The insider: image plus conversation

Intellectual luxury

System defines its value through long-form conversations paired with portfolios by leading image-makers.

Source 6

Personality over pedestal

The Gentlewoman focuses on personal style and combines journalism, photography, warmth, and purpose.

Source 7

Reading is a visual material

Text-heavy moments need pacing, entry points, and tonal contrast—not artificially tiny copy.

Design synthesis

KLAT translation

Make interviews feel spoken. Alternate portraits, questions, pauses, pull quotes, and evidence.

Design synthesis

WORDS SHOULD NOT FILL THE SPACE LEFT BY PHOTOGRAPHY. THEY SHOULD CHANGE WHAT THE PHOTOGRAPH MEANS.

4. Couture and heritage: image as evidence

Craft is the content

The Met describes couture through dressmaking, tailoring, embellishment, and exceptional technical mastery.

Source 8

Old media was functional

Fashion plates documented and disseminated style before fashion photography; annotation and provenance were central.

Source 9

Archive can be adventurous

The Ambassador used ambitious photography, fine art, and editorial experimentation to promote postwar British textiles.

Source 10

KLAT translation

Show the hand, the seam, the room, the repair, and the source. Heritage should be traceable, not merely beige.

Design synthesis

LUXURY BECOMES BELIEVABLE WHEN THE READER CAN SEE TIME, LABOUR, MATERIAL, AND OWNERSHIP.

TRANSLATION

What KLAT should take—and refuse.

TAKE	The authority of one unforgettable photograph.	REFUSE	Empty luxury signifiers and borrowed masthead theatre.
TAKE	Brodovitch's crop, white space, and page-to-page motion.	REFUSE	Cropping that amputates garment evidence without purpose.
TAKE	Independent magazines' permission to show real identity.	REFUSE	Applied 'zine noise' that treats youth as a texture.
TAKE	Long-form conversation as intellectual luxury.	REFUSE	Tiny body copy used to simulate seriousness.
TAKE	Couture's attention to hand, process, and material.	REFUSE	Mystique that hides makers or invents provenance.
TAKE	Heritage pacing, patina, and restraint.	REFUSE	Nostalgia that confuses wealth with character.

Monumental Entrance

70:30

GOVERNING IDEA

One full-bleed image establishes authority; a compact white text plaque behaves like a museum label.

GRID + TYPE

12 columns; full bleed; 8 mm safety inset. Display serif 44–64 pt; caption sans 8–9 pt

IMAGE + TEXT

Single vertical hero, quiet background, garment silhouette intact. Deck + 90–130 words + credits

BEST USE

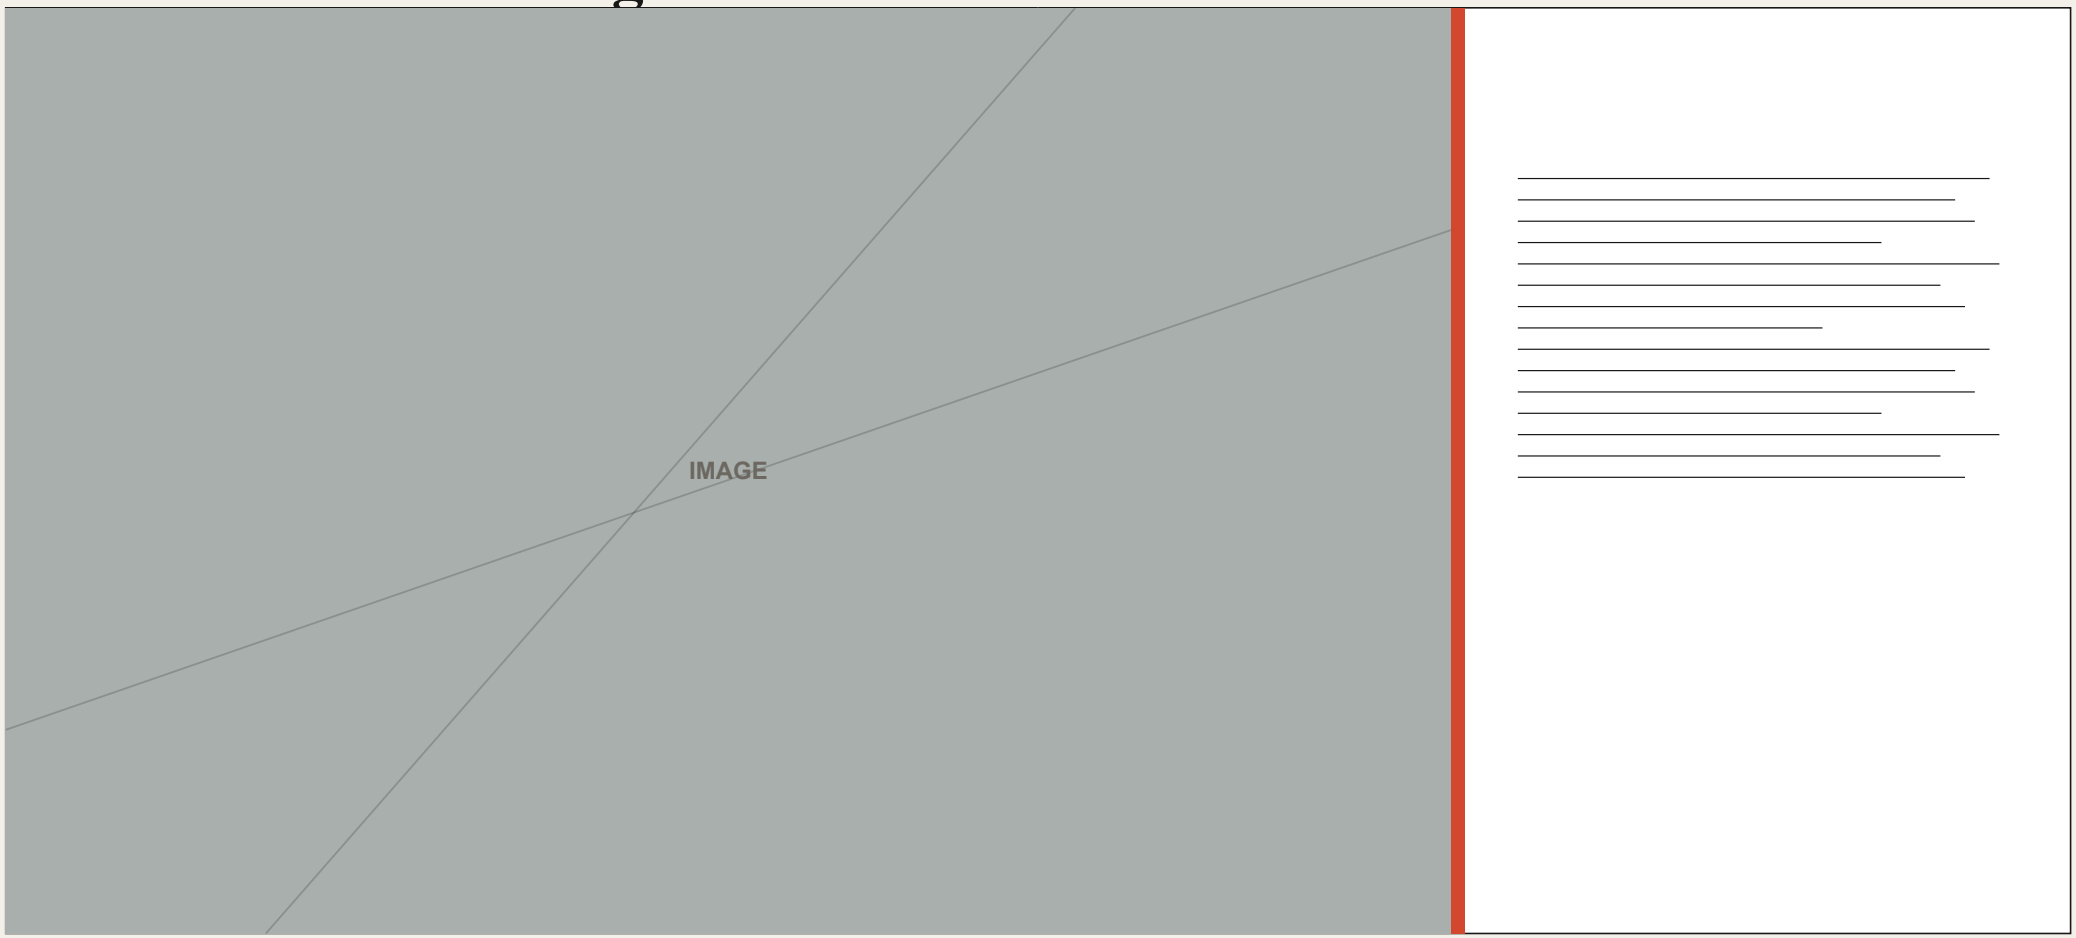

Open a major fashion story or designer profile.

FAILURE CHECK

Text plaque covers the garment or feels like an ad.

Editorial Counterweight

70:30

GOVERNING IDEA

A dominant image is balanced by a disciplined essay column, creating tension without visual noise.

GRID + TYPE

8/4 column split; image bleeds left. High-contrast serif + neutral grotesk

IMAGE + TEXT

Landscape or portrait with negative space toward gutter. Headline + standfirst + 180–230 words

BEST USE

Feature opener or visual essay chapter.

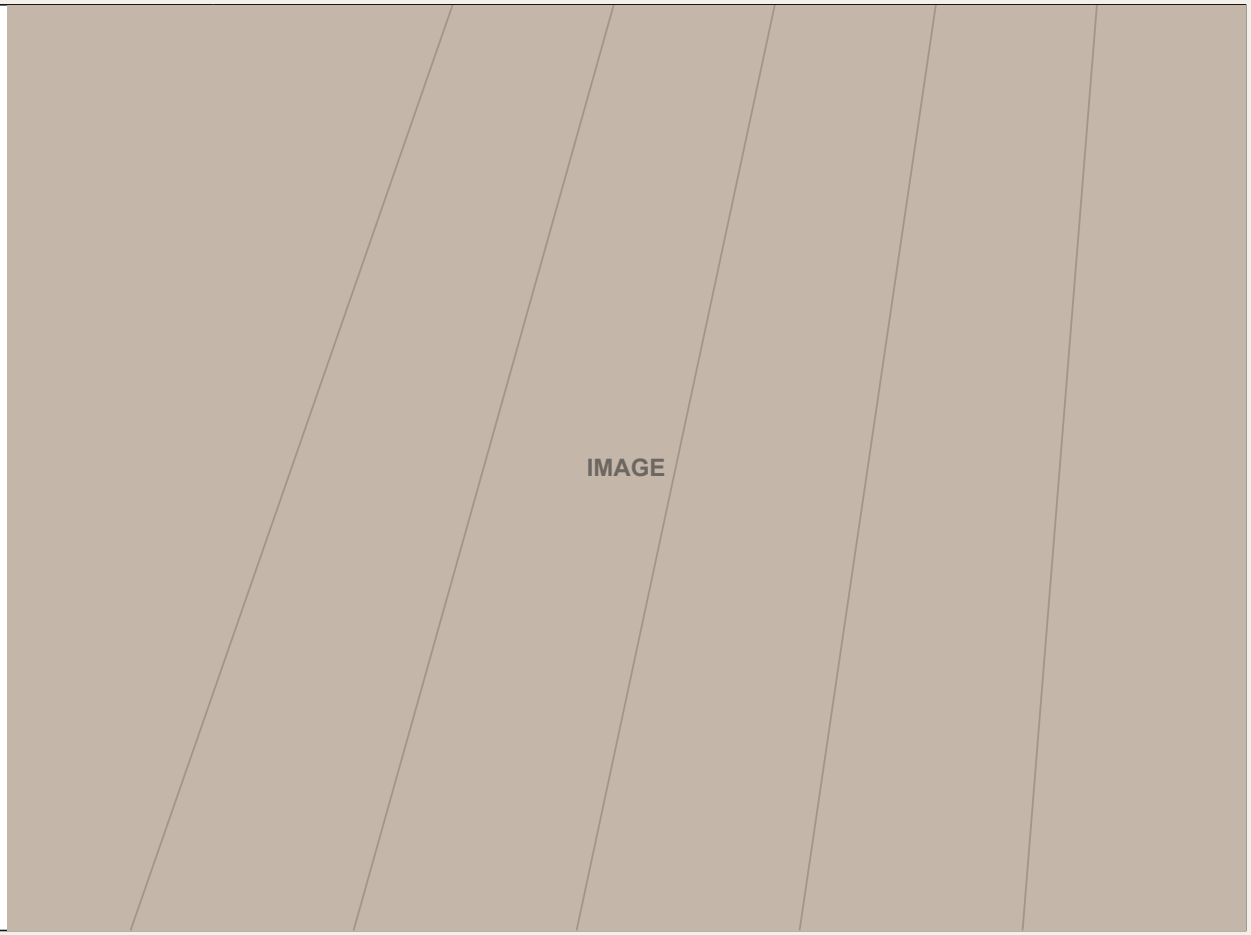

FAILURE CHECK

Subject faces out of the spread; gutter cuts key detail.

The Quiet Authority

60:40

01

GOVERNING IDEA

Text leads with controlled restraint while a single image delivers the emotional proof.

GRID + TYPE

4/8 split; generous outer margin. Serif headline 38–52 pt; body 9.5/13

IMAGE + TEXT

Full-height image with calm tonal range. Headline + 260–340 words + pull quote

BEST USE

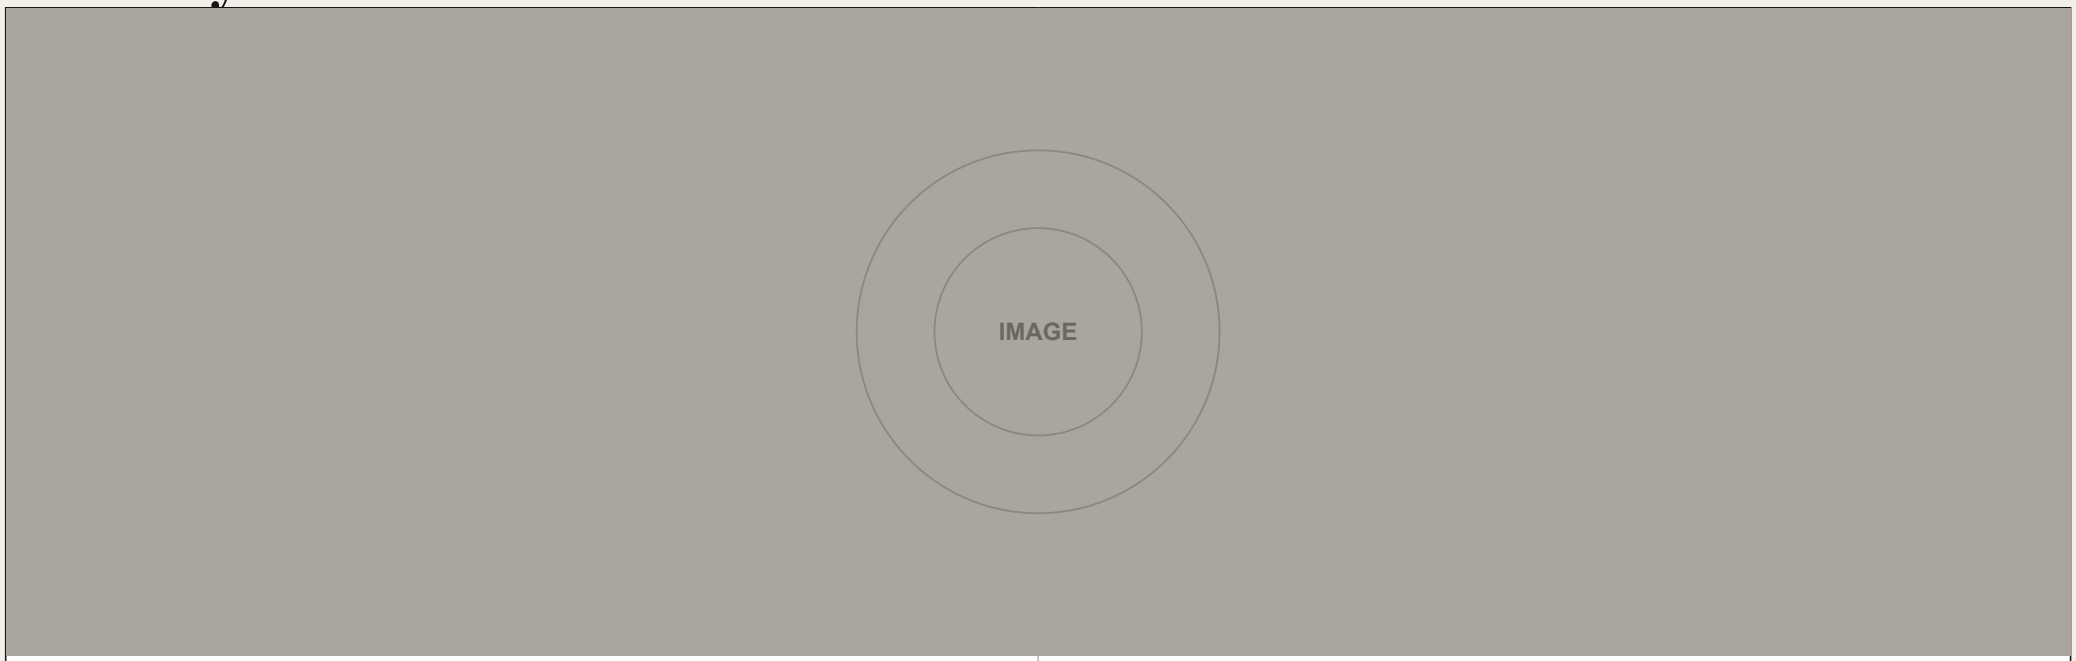

Profile opener with meaningful writing.

FAILURE CHECK

Text block becomes grey and undifferentiated.

Runway Horizon

70:30

GOVERNING IDEA

A cinematic panorama makes the clothes feel like a world rather than a product.

GRID + TYPE

12 columns; image across top 70%. Condensed sans for labels; serif body

IMAGE + TEXT

Wide crop, motion or architecture; horizon aligned. Two columns + look credits

BEST USE

Location story, collection narrative.

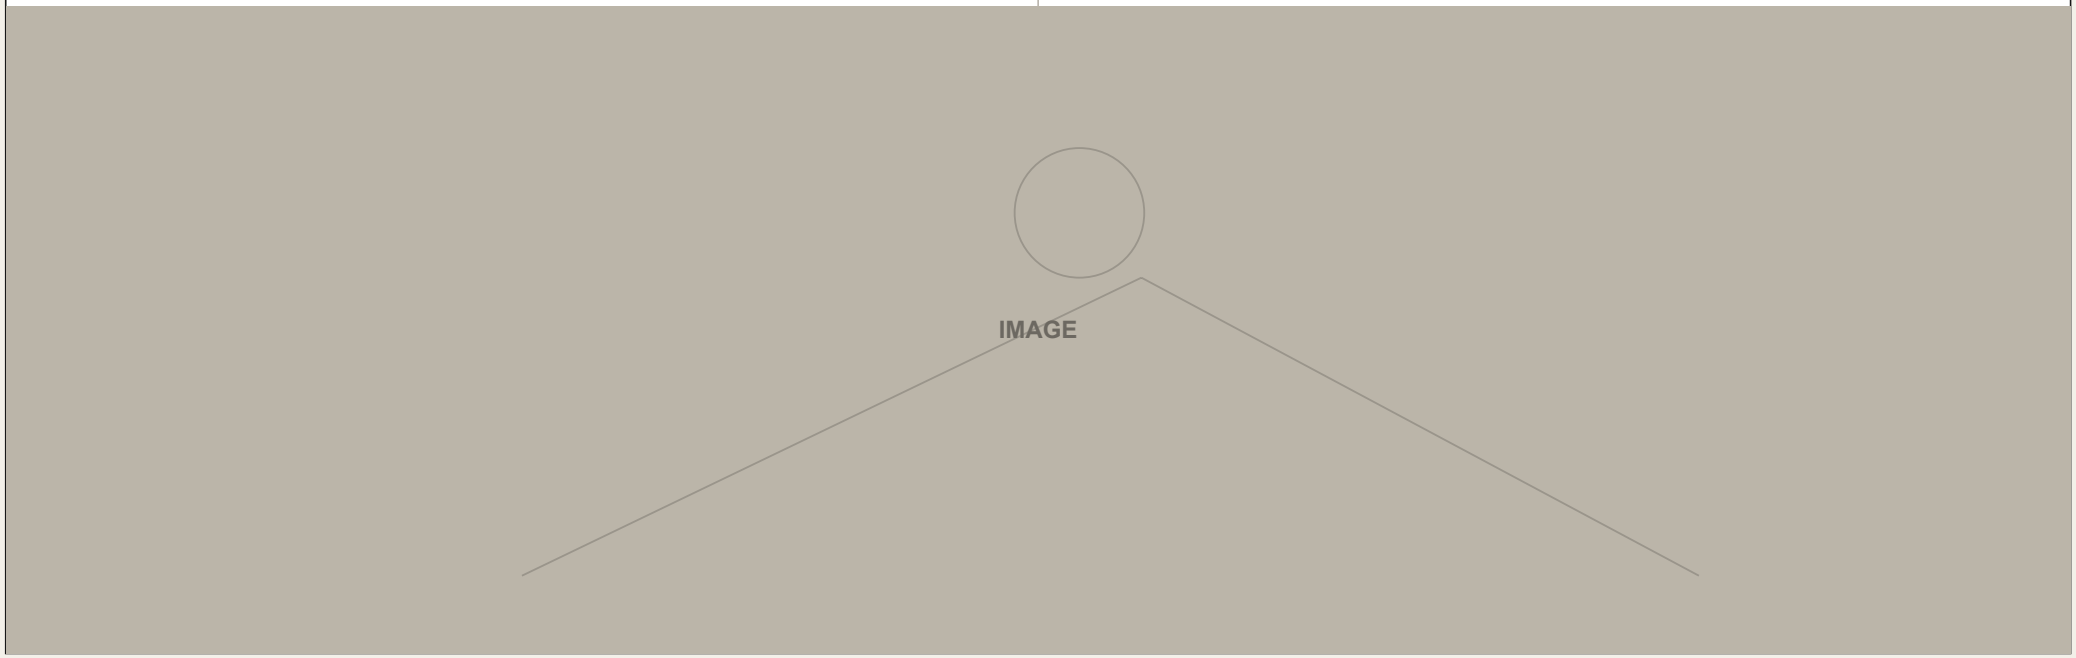

FAILURE CHECK

Panorama lacks one obvious focal point.

House Name

70:30

THE FORM

GOVERNING IDEA

An oversized title occupies the breath above a continuous image field.

GRID + TYPE

Baseline grid; lower 70% image band. Editorial serif 52–76 pt; tight tracking

IMAGE + TEXT

Horizontal pair that reads as one scene. Title + 80–120-word précis

BEST USE

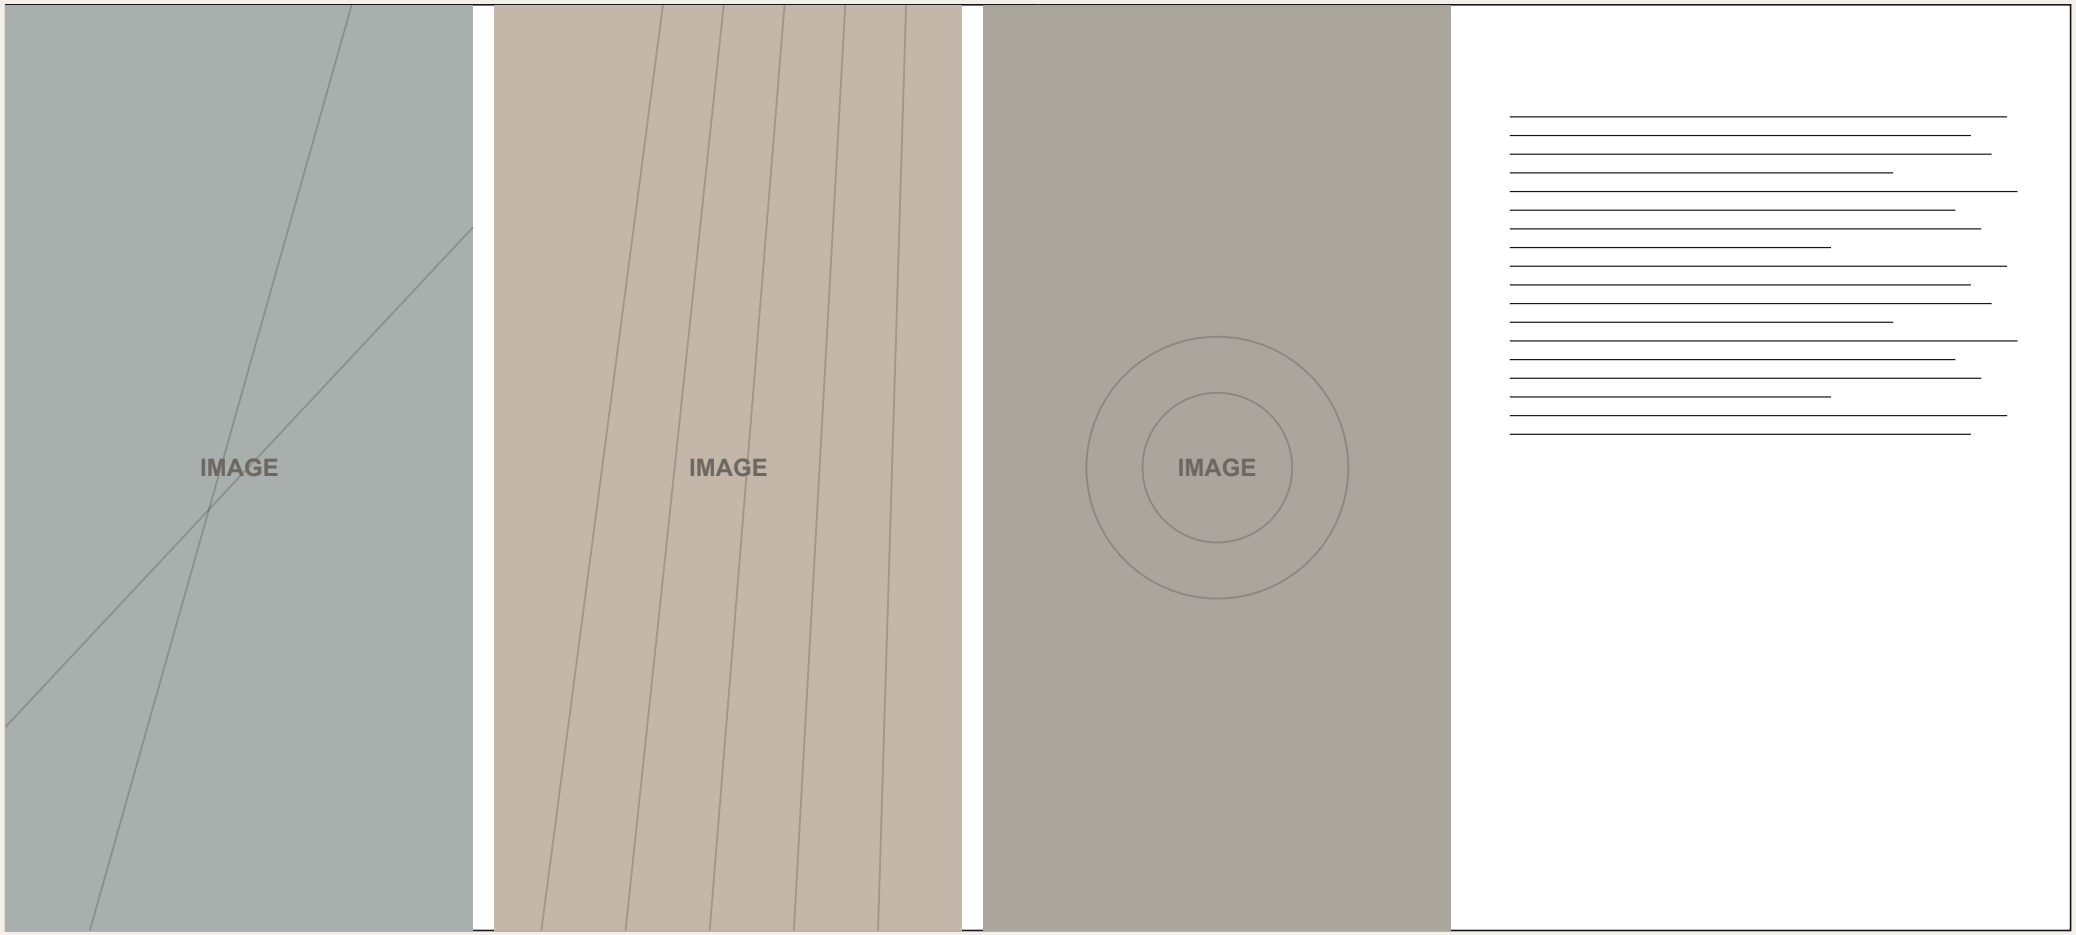

Fashion house introduction or section divider.

FAILURE CHECK

Headline competes with facial expression.

Three Acts

70:30

GOVERNING IDEA

A triptych turns styling changes into a deliberate visual progression.

GRID + TYPE

Three equal image bays + one narrow text rail. Sans caps 10 pt; serif deck 18–24 pt

IMAGE + TEXT

Same subject, controlled variation in pose/crop. Short concept note + numbered credits

BEST USE

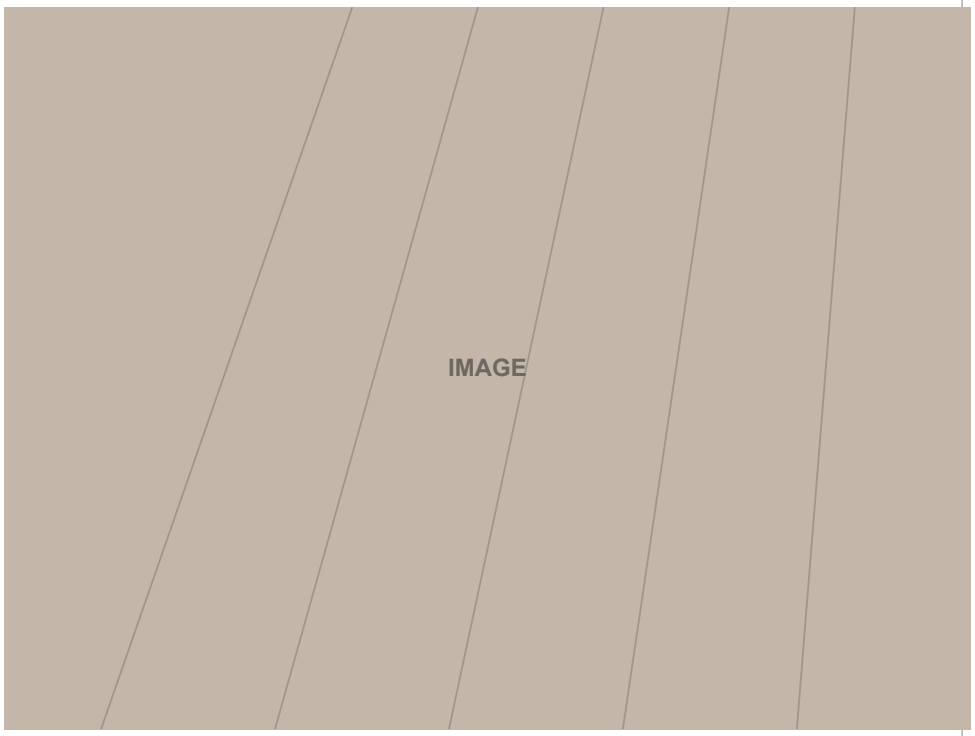

Three-look edit or material study.

FAILURE CHECK

Images repeat rather than progress.

Gallery Distance

60:40

GOVERNING IDEA

A framed image gains rarity from the surrounding field; text remains secondary but substantive.

GRID + TYPE

Image on 8 columns; text on 4. Elegant serif; small caps metadata

IMAGE + TEXT

One exceptional image with strong edge discipline. 200–260 words + caption

BEST USE

Couturier, artist, or atelier portrait.

FAILURE CHECK

The image is too ordinary to deserve the space.

Cut Through

70:30

GOVERNING IDEA

A directional rule cuts through a cinematic image and pulls the reader across the gutter.

GRID + TYPE

Diagonal vector over 12 columns. Compressed sans headline + serif body

IMAGE + TEXT

Dark image with clear light path. Two short text islands, 140 words total

BEST USE

Night fashion, movement, performance.

FAILURE CHECK

Graphic line becomes decoration with no directional role.

Twin Icon

70:30

GOVERNING IDEA

Two full-height portraits create a controlled comparison: pose, generation, silhouette, or styling.

GRID + TYPE

Two portrait bays + 3-column notes. Restrained sans; names set large

IMAGE + TEXT

Matched lighting and scale; contrasting attitude. Profiles, questions, or garment notes

BEST USE

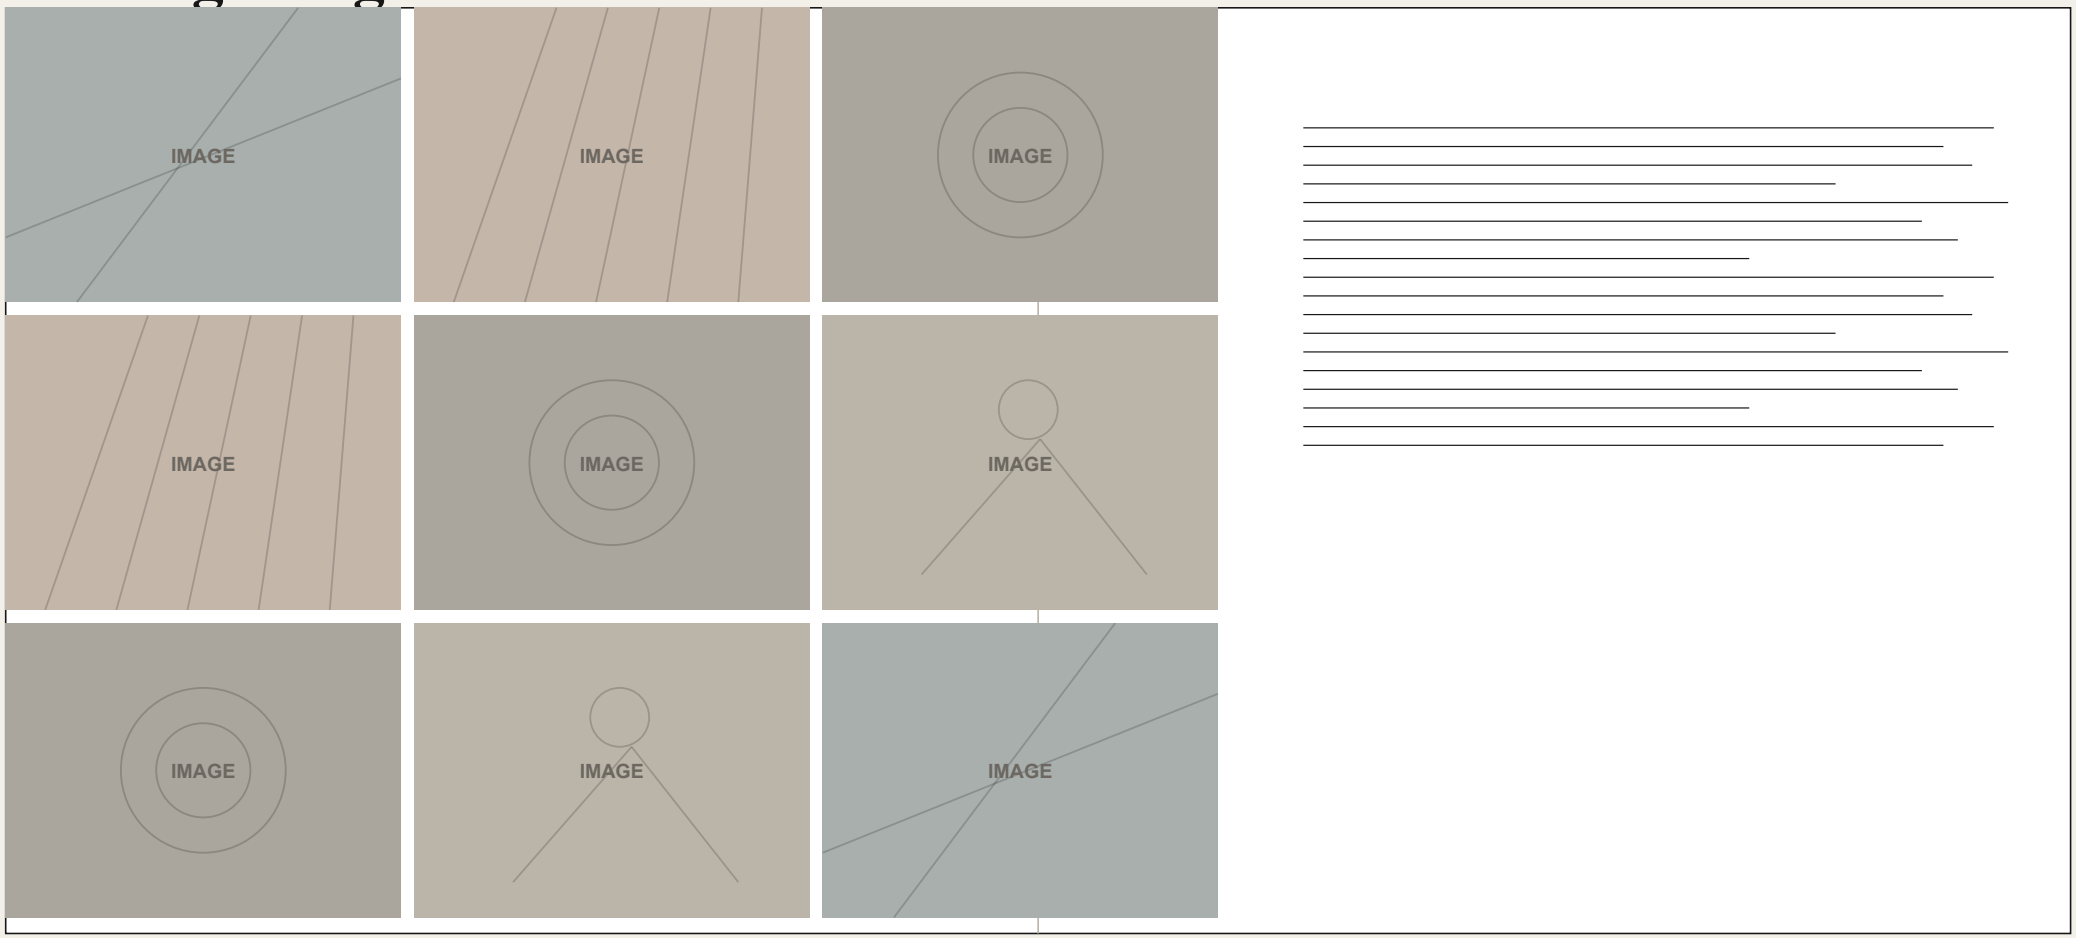

Dual portrait, dialogue, or collection comparison.

FAILURE CHECK

One portrait visually dominates without narrative reason.

Casting Ledger

60:40

GOVERNING IDEA

A contact-sheet rhythm turns casting into an editorial argument about identity.

GRID + TYPE

3×3 image matrix + 4-column essay. Monospaced labels + humanist serif

IMAGE + TEXT

Consistent portraits with meaningful differences. 300 words + short subject identifiers

BEST USE

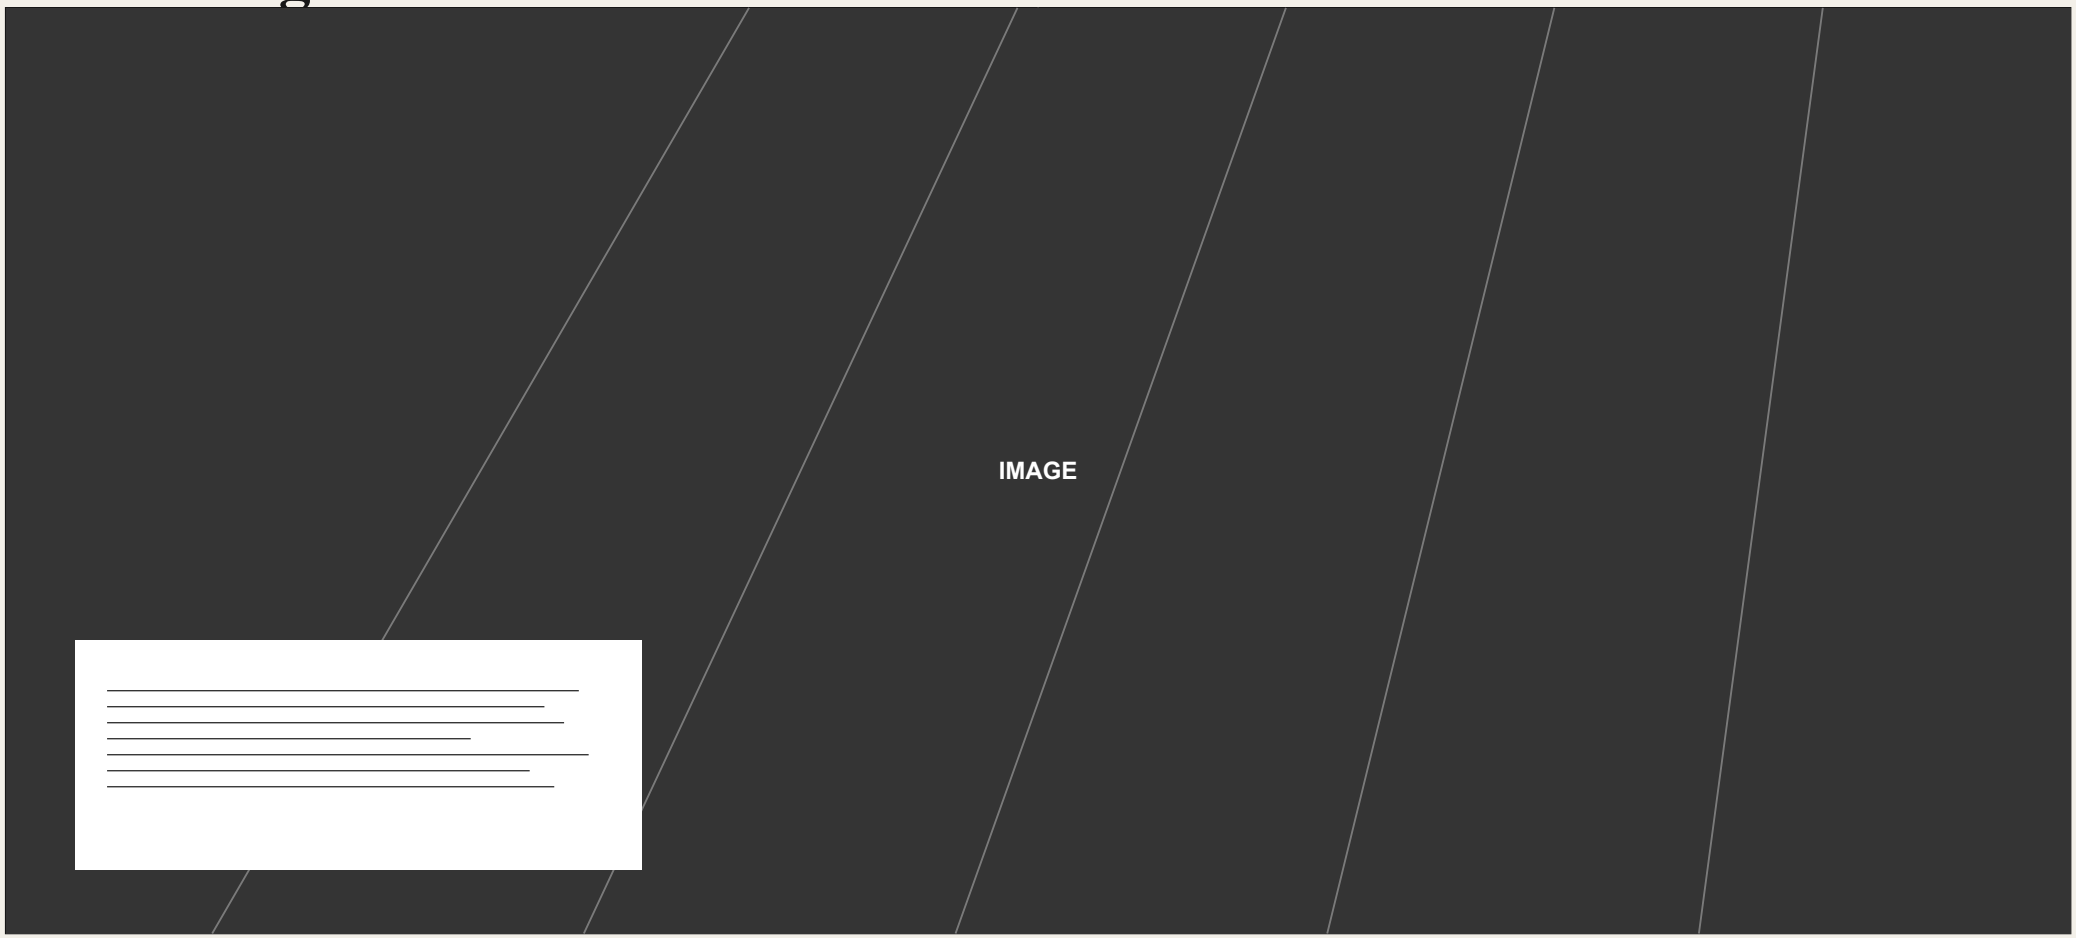

Casting story or identity-led portfolio.

FAILURE CHECK

Grid becomes anonymous or tokenistic.

Raw Margin

70:30

GOVERNING IDEA

A rough crop and exposed annotations create immediacy while the core hierarchy stays exact.

GRID + TYPE

Full bleed + 3-column annotation zone. Grotesk bold + mono notes

IMAGE + TEXT

Flash portrait, visible environment, imperfect edge. Headline + fragments + credits

BEST USE

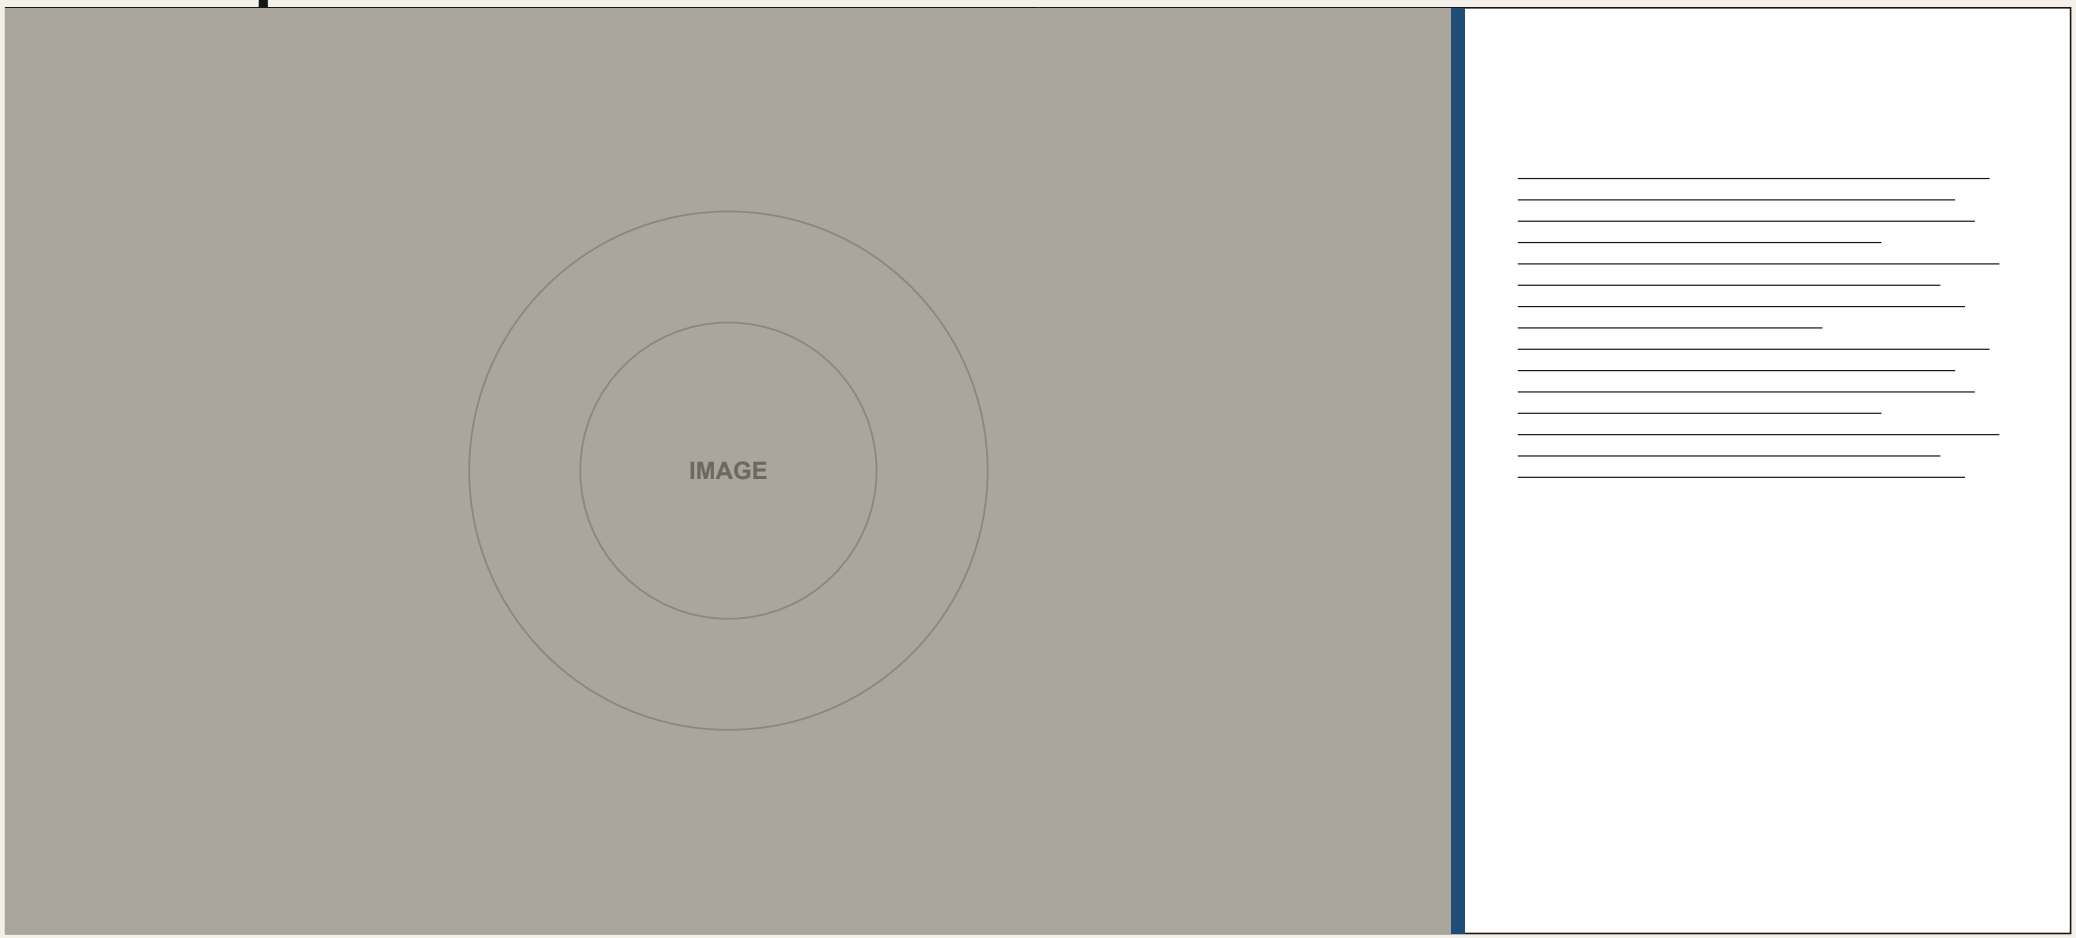

Youth/culture opener.

FAILURE CHECK

Fake distress overwhelms real content.

Side-Swipe

70:30

GOVERNING IDEA

The image pushes hard from one side while narrow text resists from the other.

GRID + TYPE

9/3 asymmetric split. Wide sans headline rotated or stacked

IMAGE + TEXT

Subject cropped with intention at edge. 120–180 words

BEST USE

Music/fashion crossover profile.

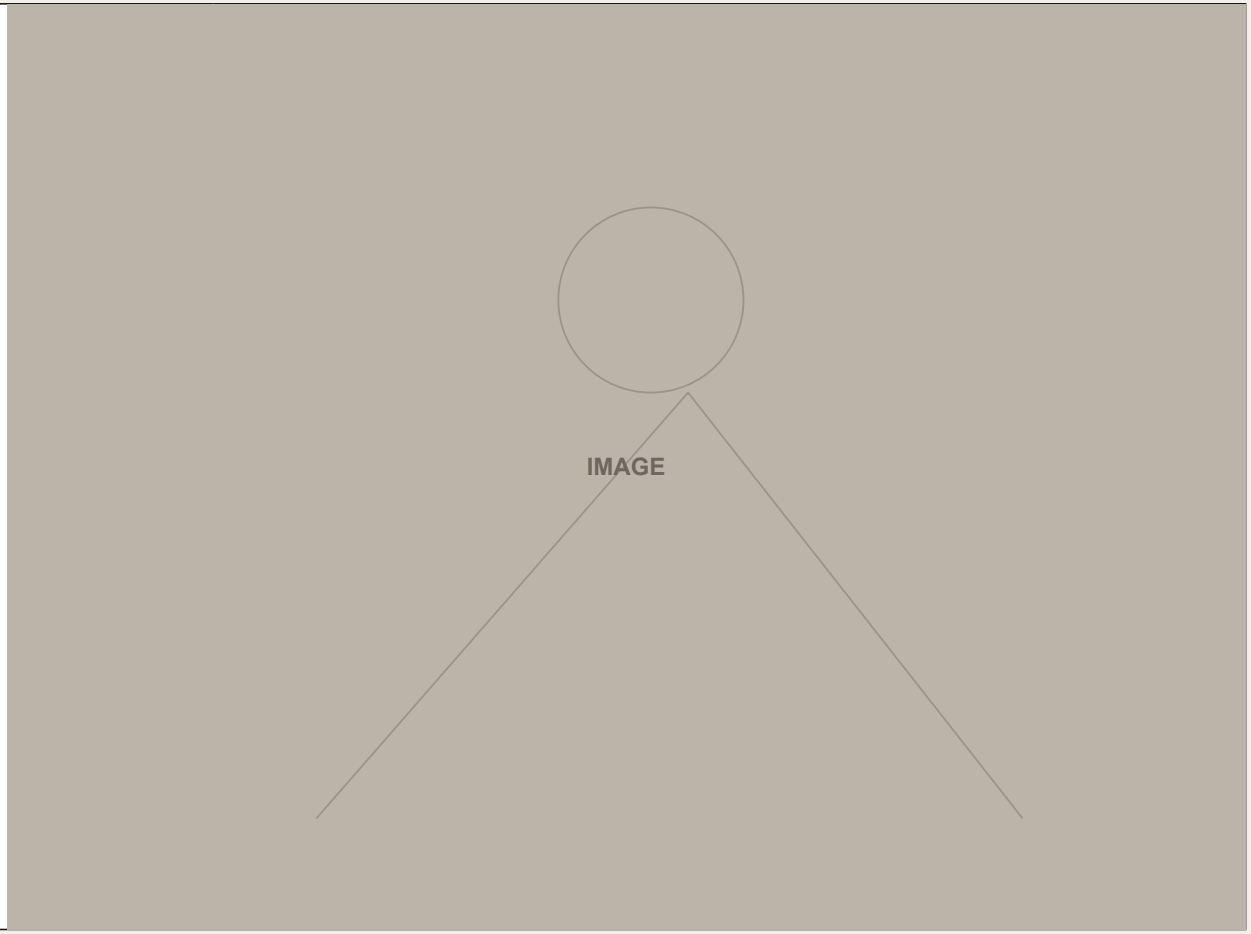

FAILURE CHECK

Aggressive crop removes styling evidence.

Straight-Up Index

60:40

01

GOVERNING IDEA

Full-length portraits and direct captions turn personal style into documentary evidence.

GRID + TYPE

Four portrait modules + interview rail. Typewriter-style labels; sans body

IMAGE + TEXT

Street-cast, full body, neutral viewpoint. Four answers + 200-word context

BEST USE

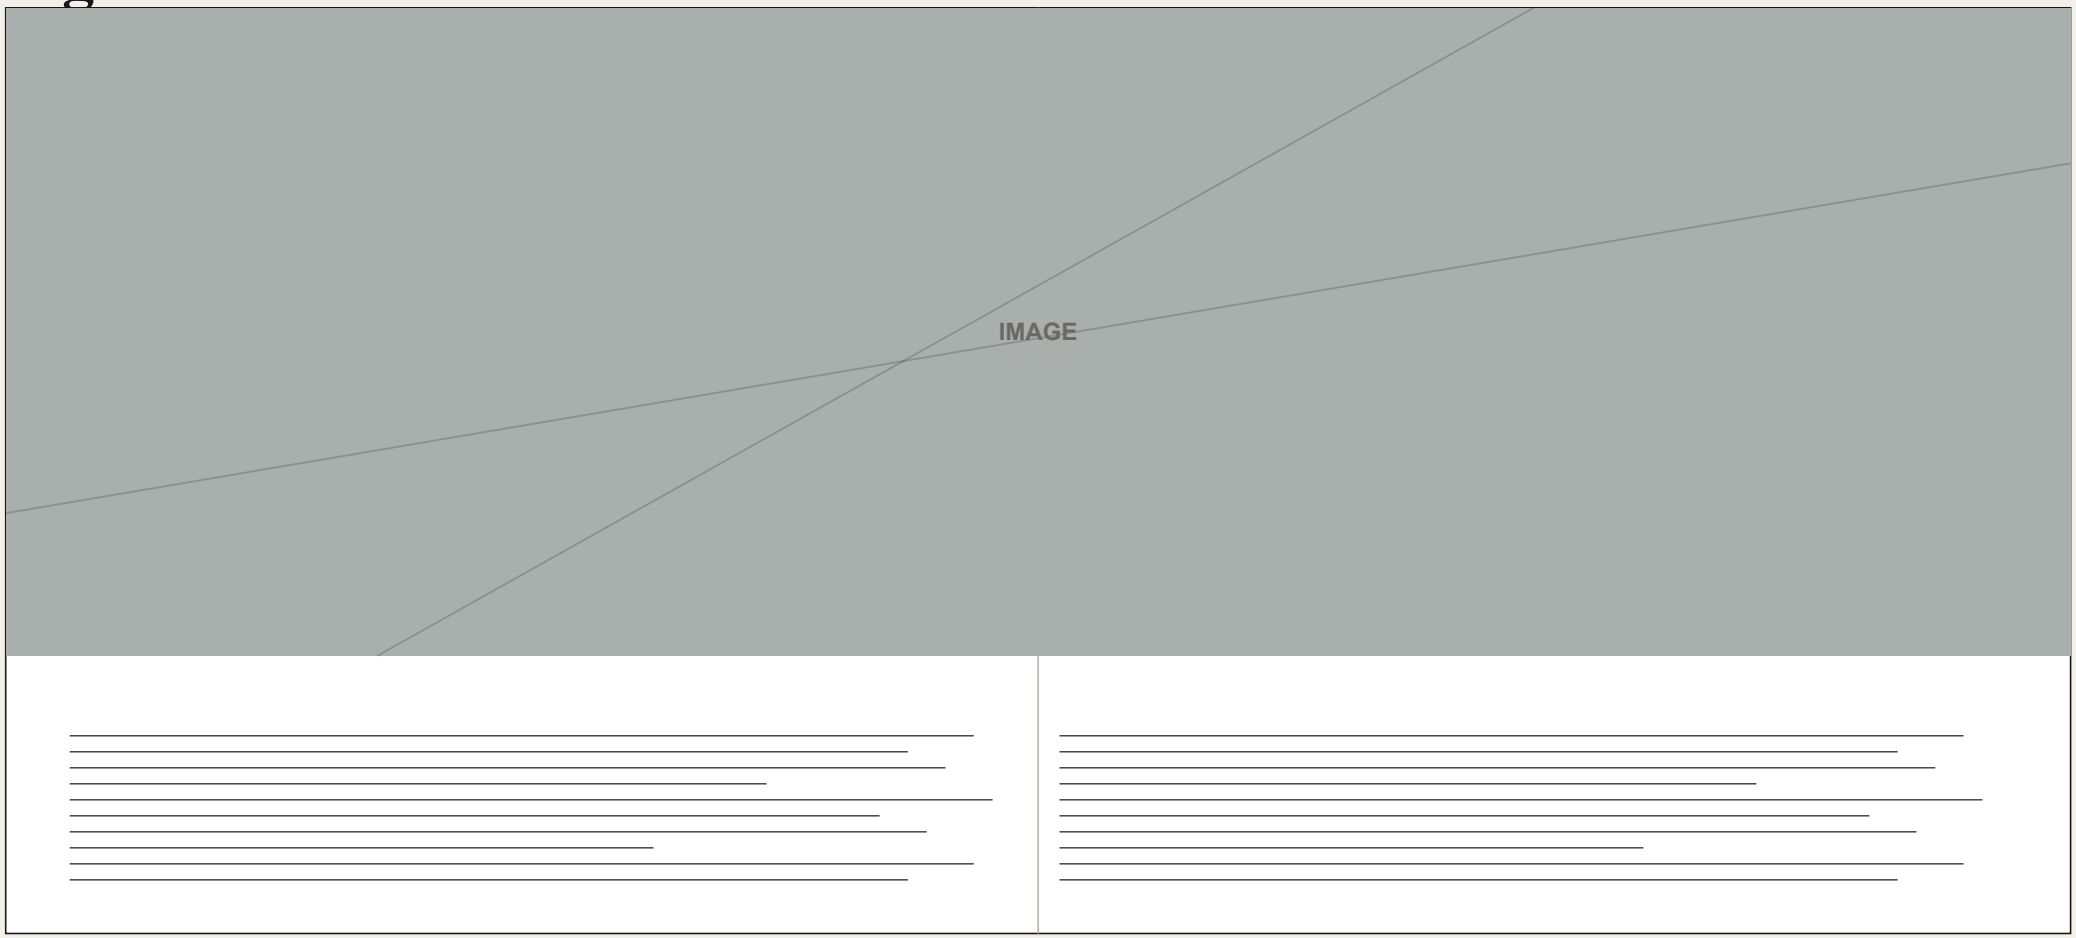

Street style or community feature.

FAILURE CHECK

Over-styling destroys documentary credibility.

Signal / Noise

70:30

GOVERNING IDEA

A clean image field is interrupted by one loud typographic signal, mirroring cultural tension.

GRID + TYPE

12-column image; headline crosses 5 columns. Ultra-bold grotesk + small serif body

IMAGE + TEXT

High-energy image with one quiet zone. 80-word provocation + source line

BEST USE

Opinion opener or trend rebuttal.

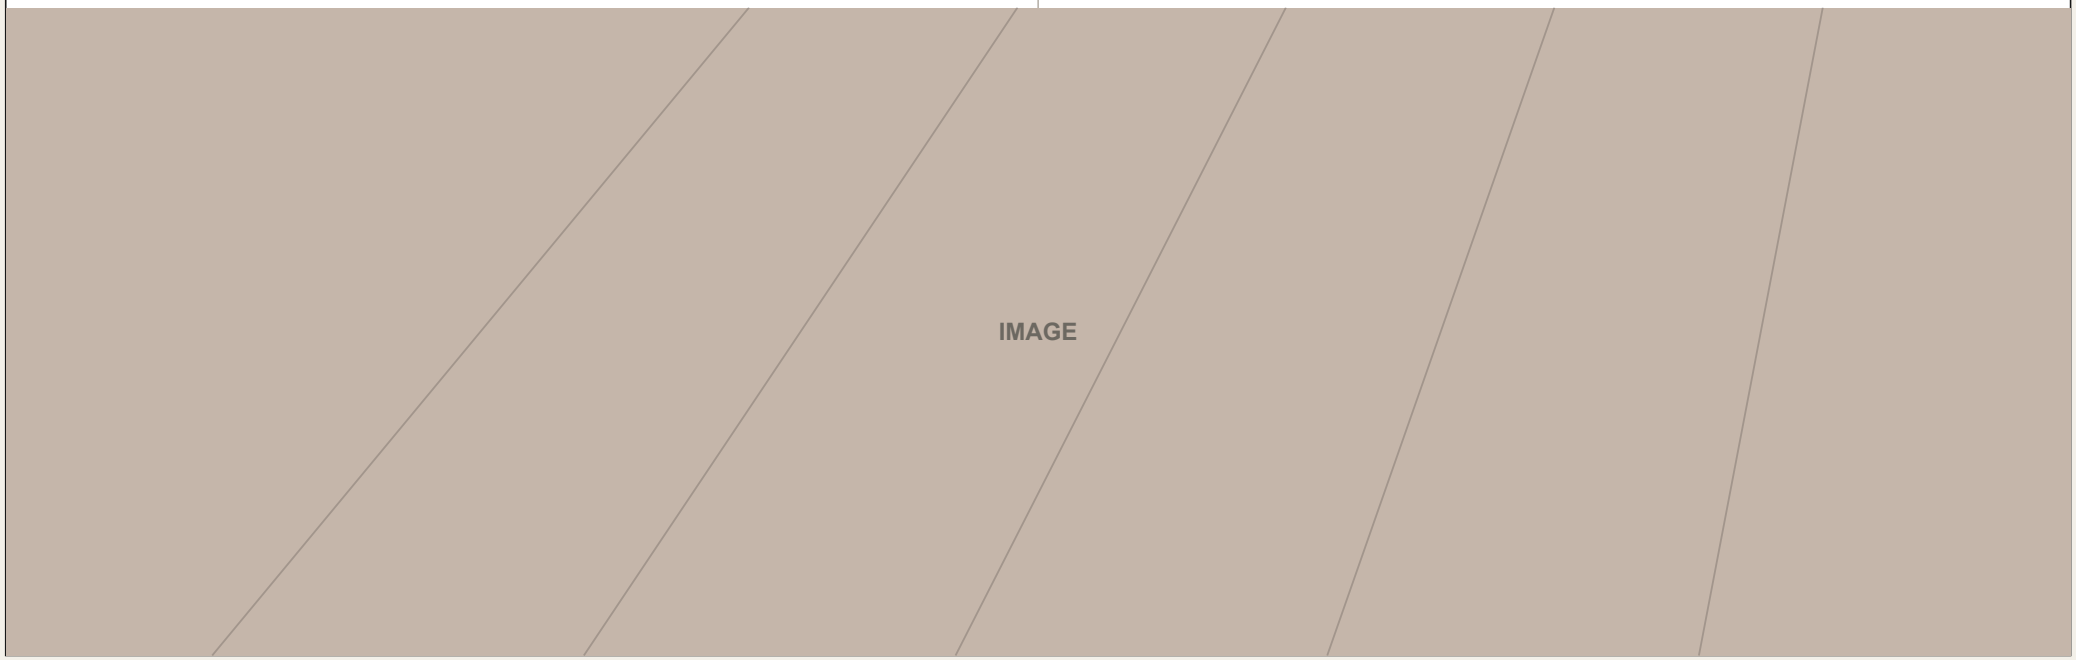

FAILURE CHECK

Every element shouts; no quiet zone remains.

Afterimage

70:30

THE FORM

GOVERNING IDEA

Repeated crops suggest memory, motion, or digital circulation rather than a single definitive frame.

GRID + TYPE

One hero + two echo fragments. Light grotesk; wide tracking

IMAGE + TEXT

Motion blur, reflection, or sequential gesture. Short essay and timestamps

BEST USE

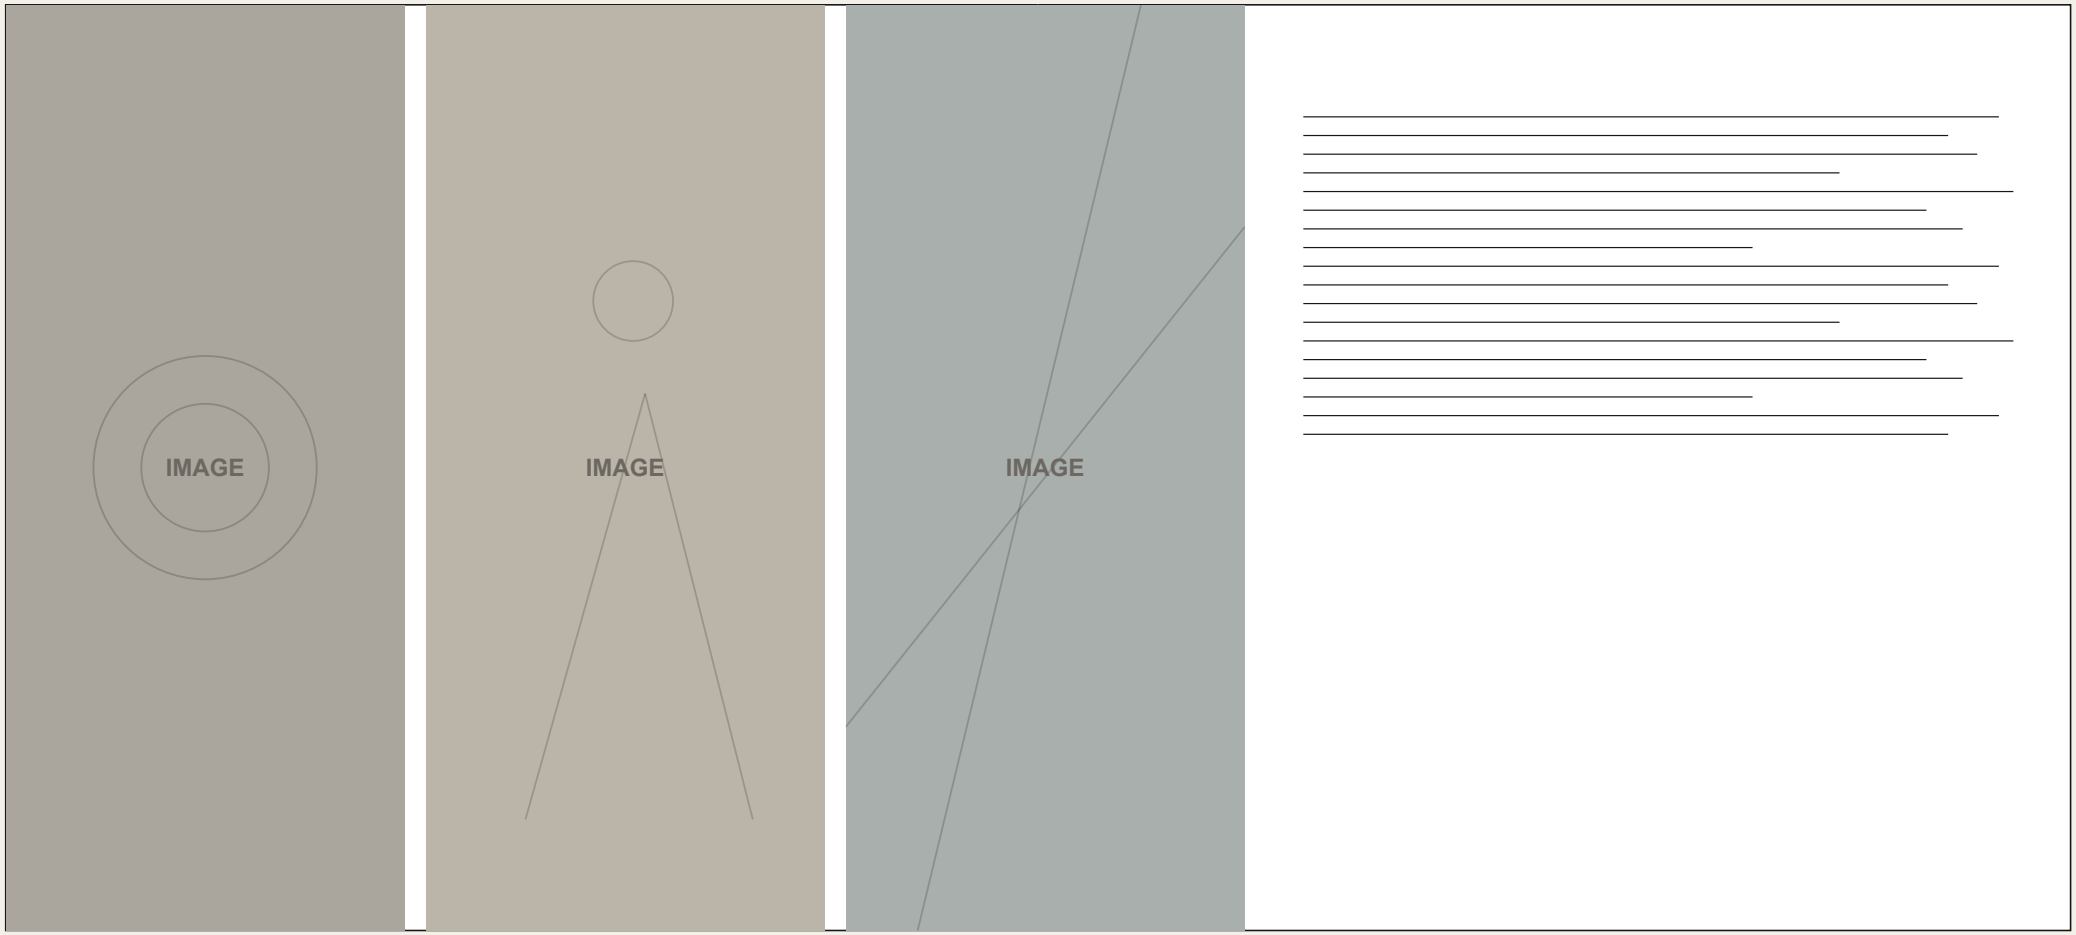

Nightlife, performance, experimental beauty.

FAILURE CHECK

Effects feel cosmetic rather than narrative.

Conversation Stack

60:40

GOVERNING IDEA

Portraits and dialogue alternate vertically, making the interview feel paced and spoken.

GRID + TYPE

6/6 split with staggered modules. Sans Q&A; serif pull quotes

IMAGE + TEXT

Two conversational portraits or details. 350–450 words in short exchanges

BEST USE

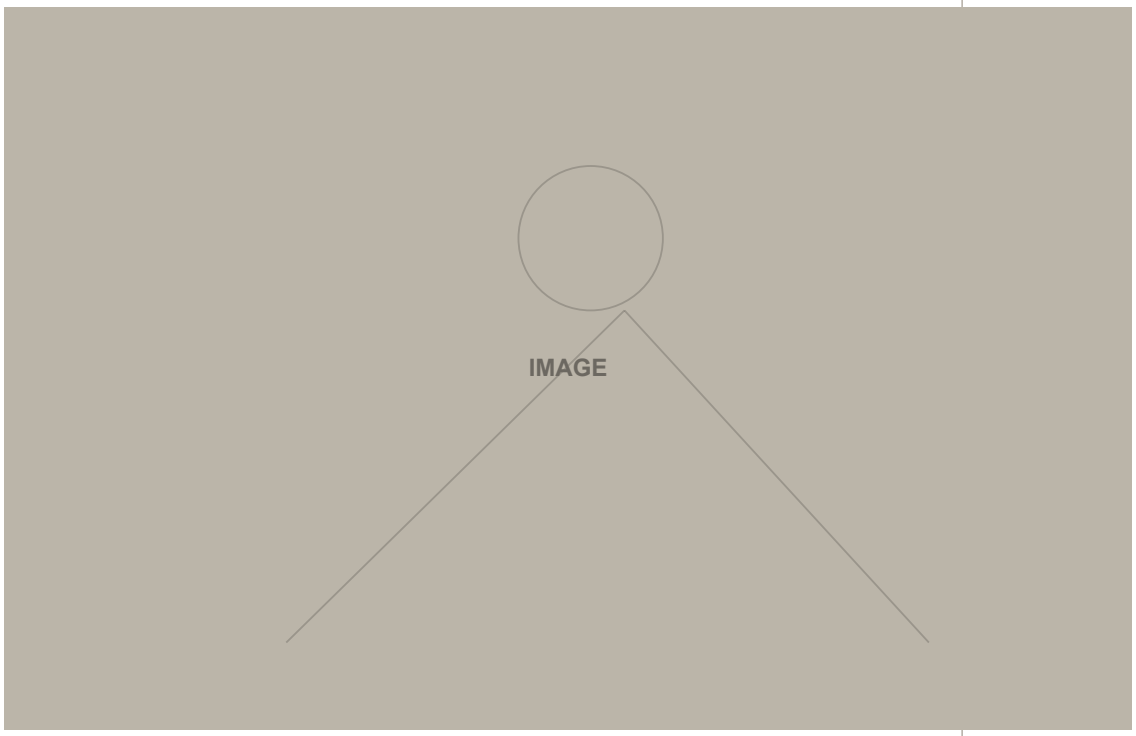

Interview continuation spread.

FAILURE CHECK

Answers become long blocks and kill the rhythm.

Sticker Logic

70:30

GOVERNING IDEA

Small labels behave like physical production marks placed over an otherwise premium image.

GRID + TYPE

Full image; floating metadata modules. Mono microtype + bold sans title

IMAGE + TEXT

Graphic, high-contrast image with open corners. Metadata, short captions, 70-word intro

BEST USE

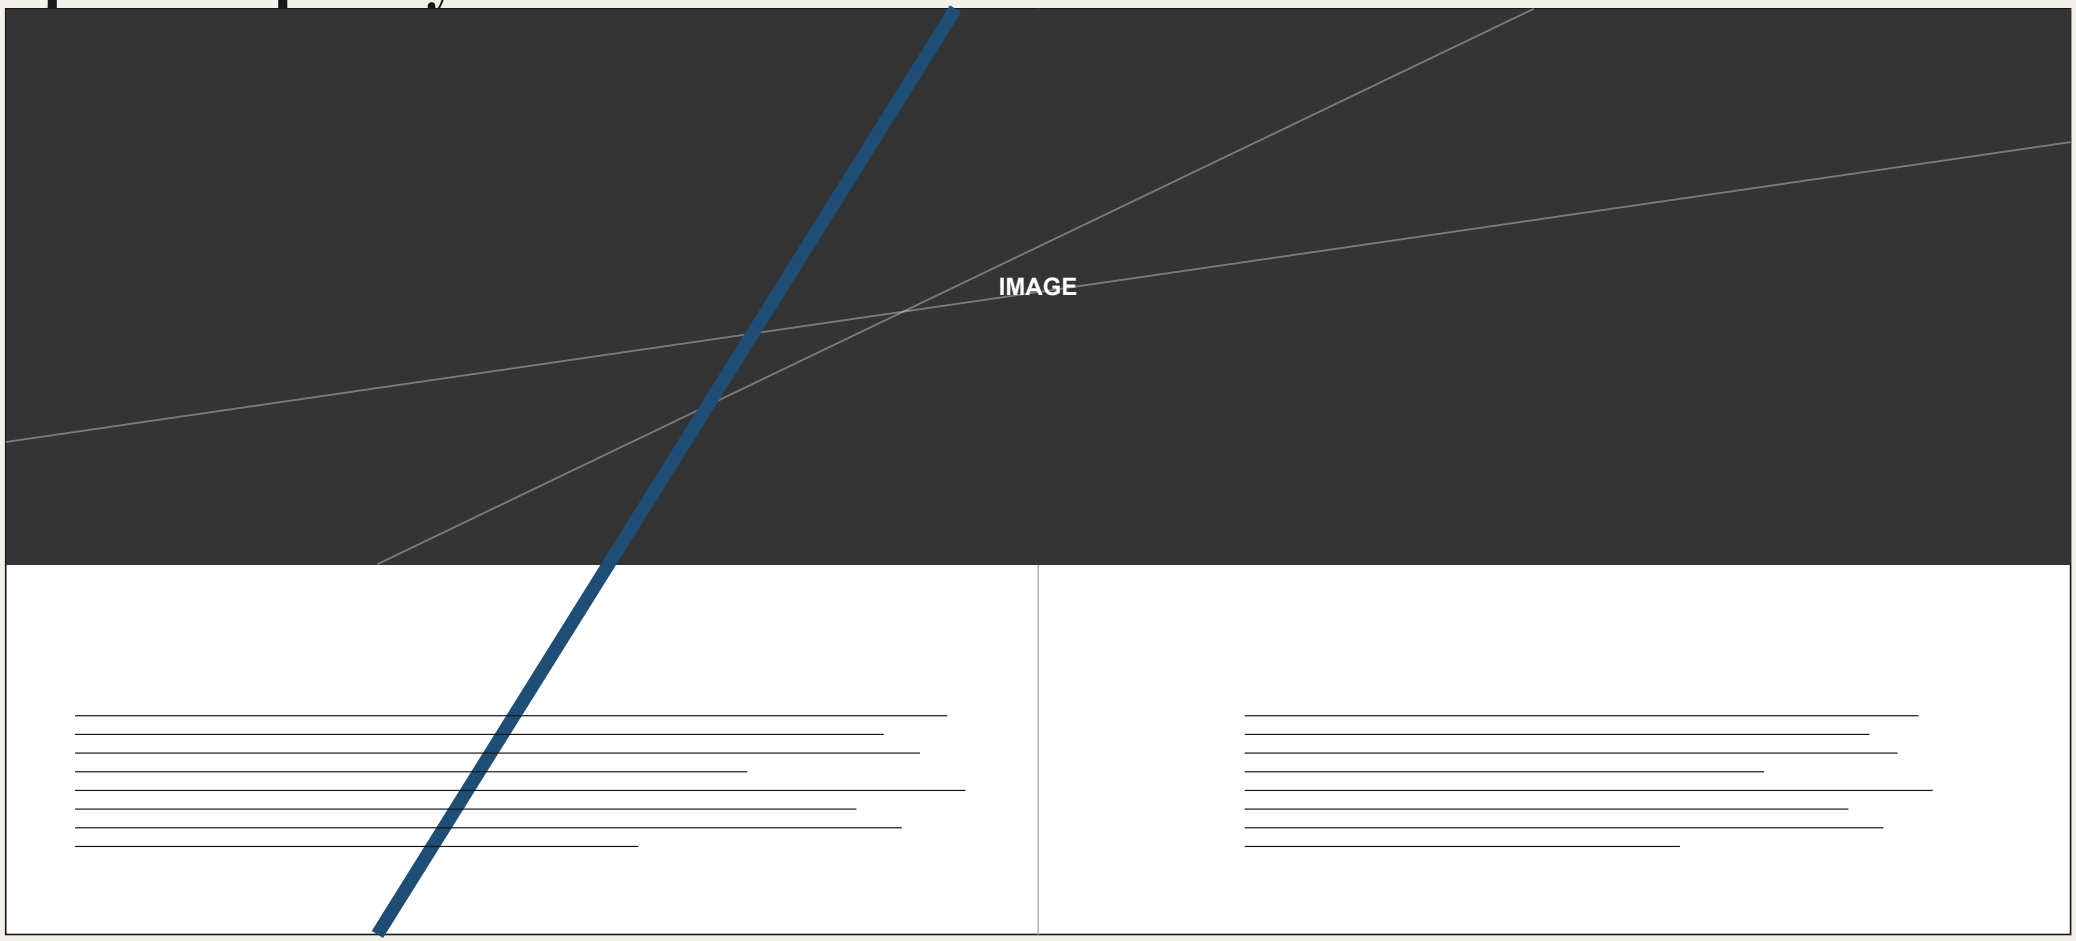

Product/fashion inventory story.

FAILURE CHECK

Labels cover faces, hands, or product details.

Split Frequency

60:40

GOVERNING IDEA

Two image scales and two text voices create a fast/slow reading experience.

GRID + TYPE

Large 7-column image + small 3-column inset. Display sans + serif essay

IMAGE + TEXT

One contextual image, one intimate detail. Headline, 240-word essay, detail caption

BEST USE

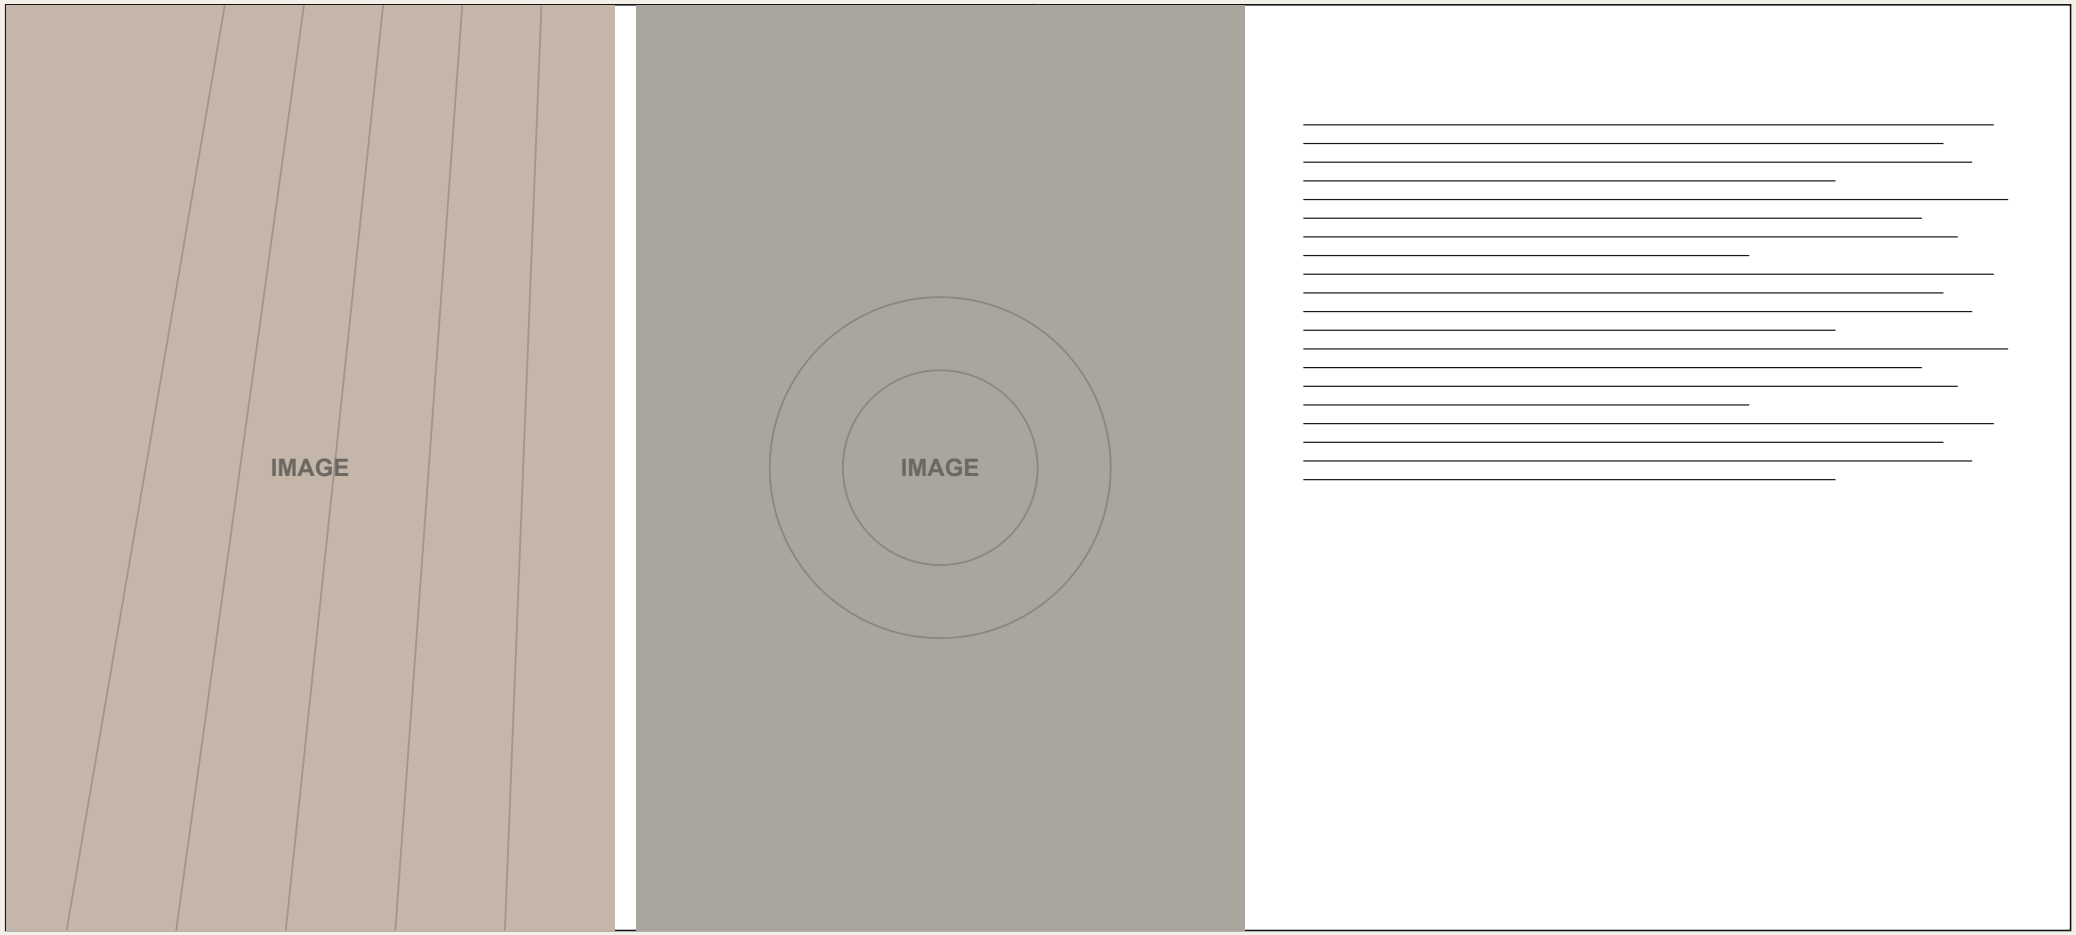

Culture report with personal testimony.

FAILURE CHECK

Inset duplicates the hero instead of adding evidence.

The Zine Fold

60:40

GOVERNING IDEA

Photocopied energy meets a strict underlying grid, keeping rebellion readable.

GRID + TYPE

6-column modular grid; intentional overlaps. Condensed grotesk + mono

IMAGE + TEXT

High grain, hard flash, collage fragments. Manifesto fragments + credits

BEST USE

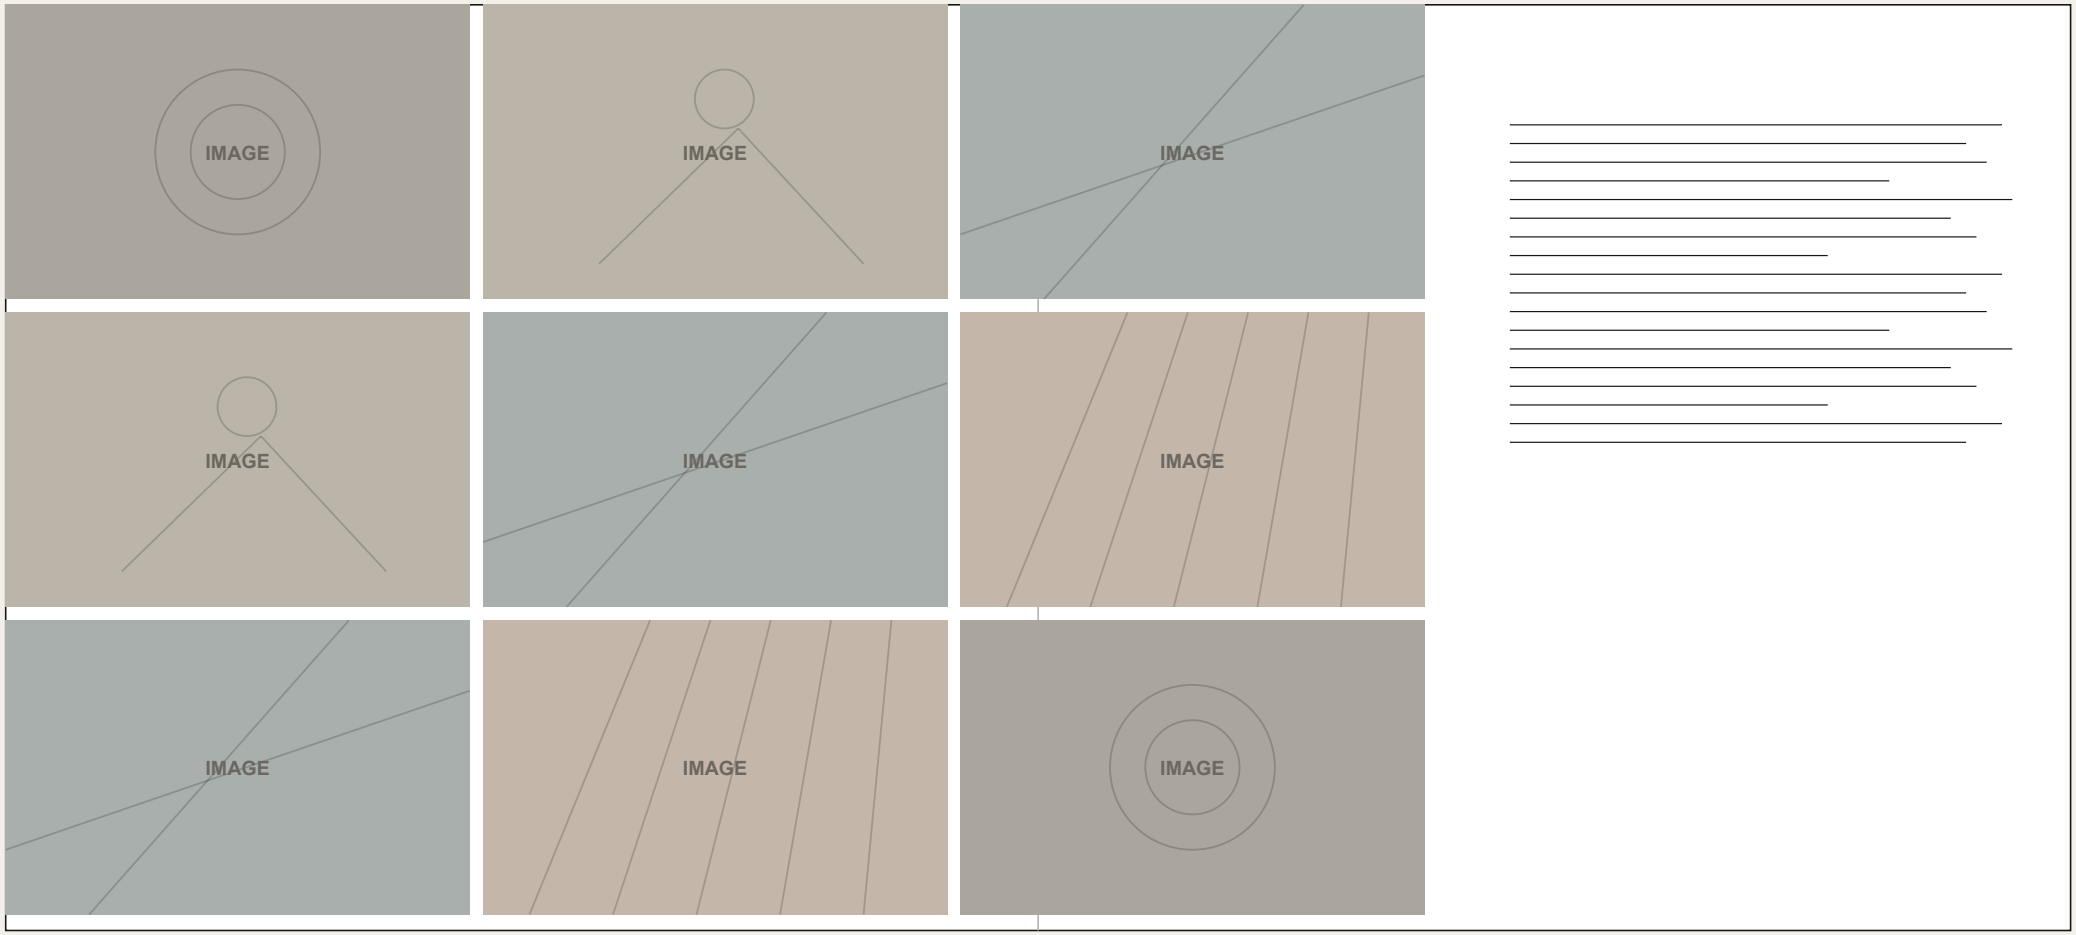

Emerging designer or scene report.

FAILURE CHECK

Randomness replaces editing.

Scroll Breaker

70:30

GOVERNING IDEA

A vertical sequence across the spread mimics digital swiping but resolves as print composition.

GRID + TYPE

Three tall crops with one interruption. UI-like labels + editorial serif

IMAGE + TEXT

Portrait sequence with evolving gesture. Short captions + 120-word close

BEST USE

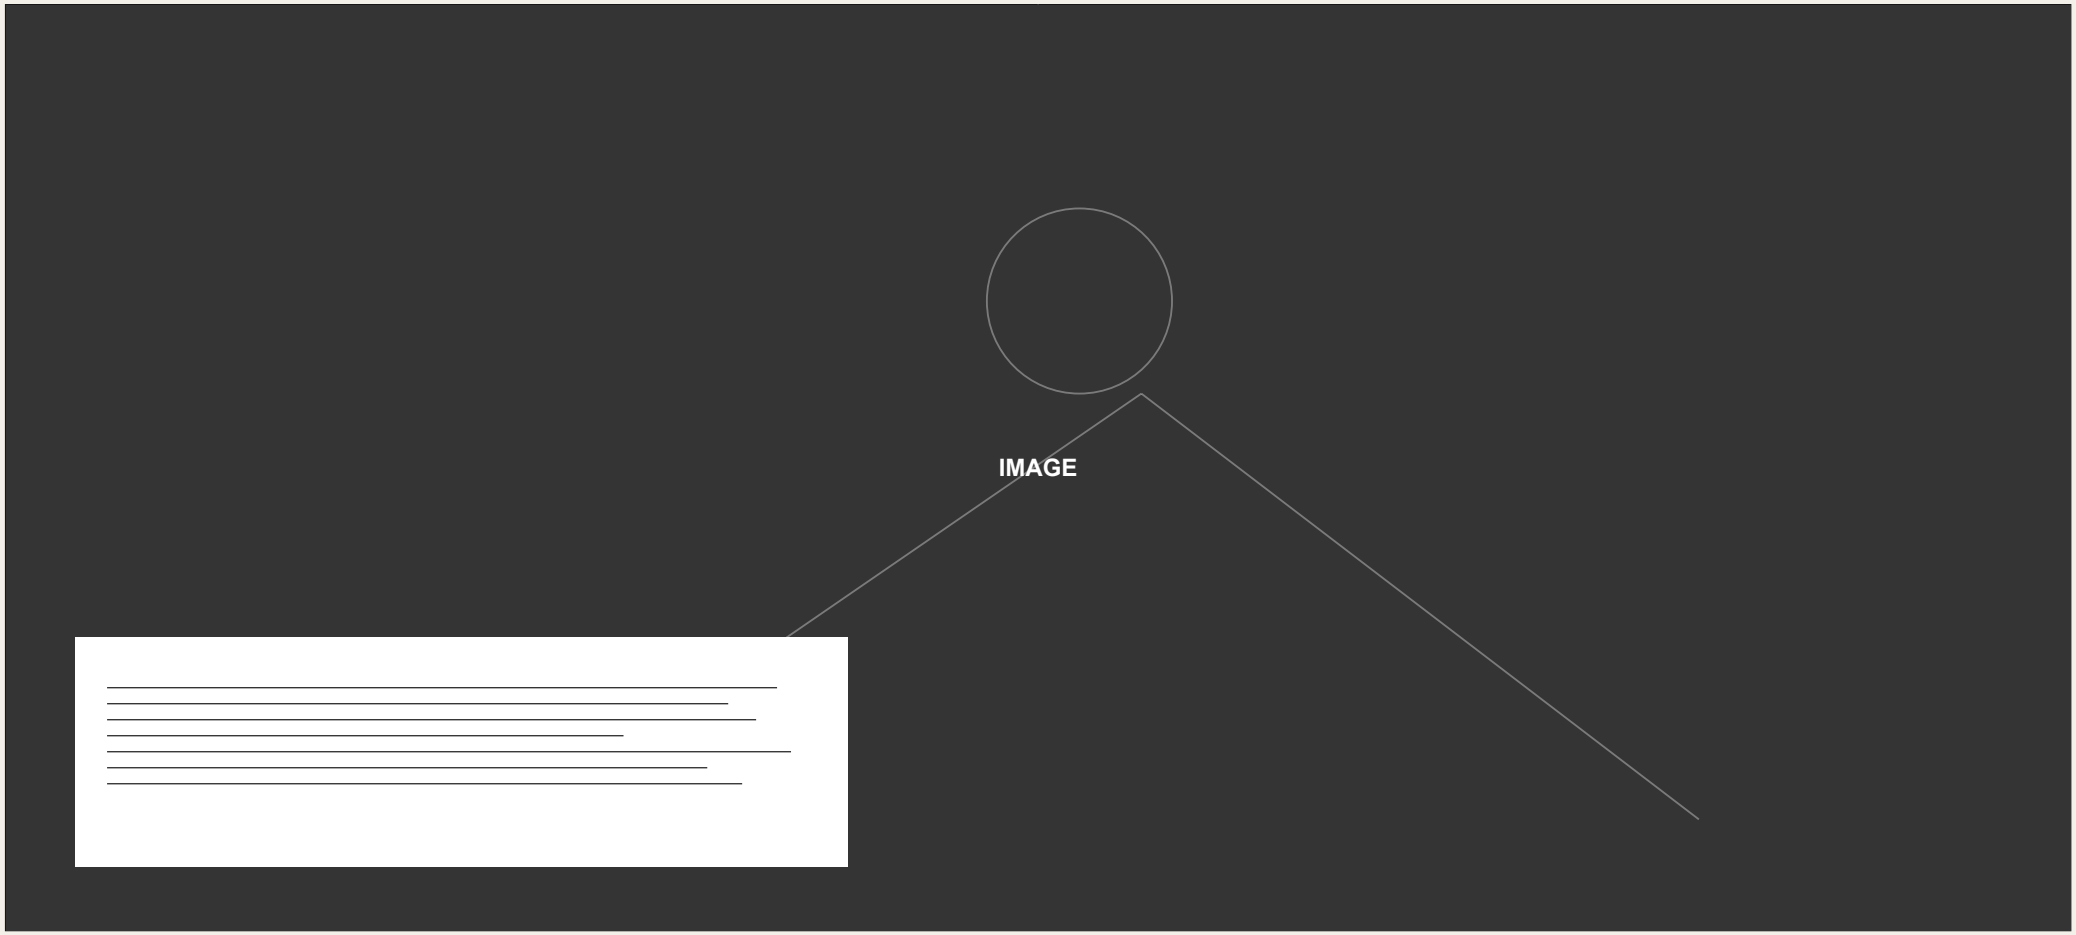

Social-native talent translated to print.

FAILURE CHECK

Feels like screenshots pasted onto paper.

Atelier Evidence

60:40

GOVERNING IDEA

Macro craft details and precise notes make labour visible, not merely luxurious.

GRID + TYPE

Two macro images + 5-column technical text. Refined serif + technical mono

IMAGE + TEXT

Embroidery, seam, hand, and tool details. Process note, material list, hours, credits

BEST USE

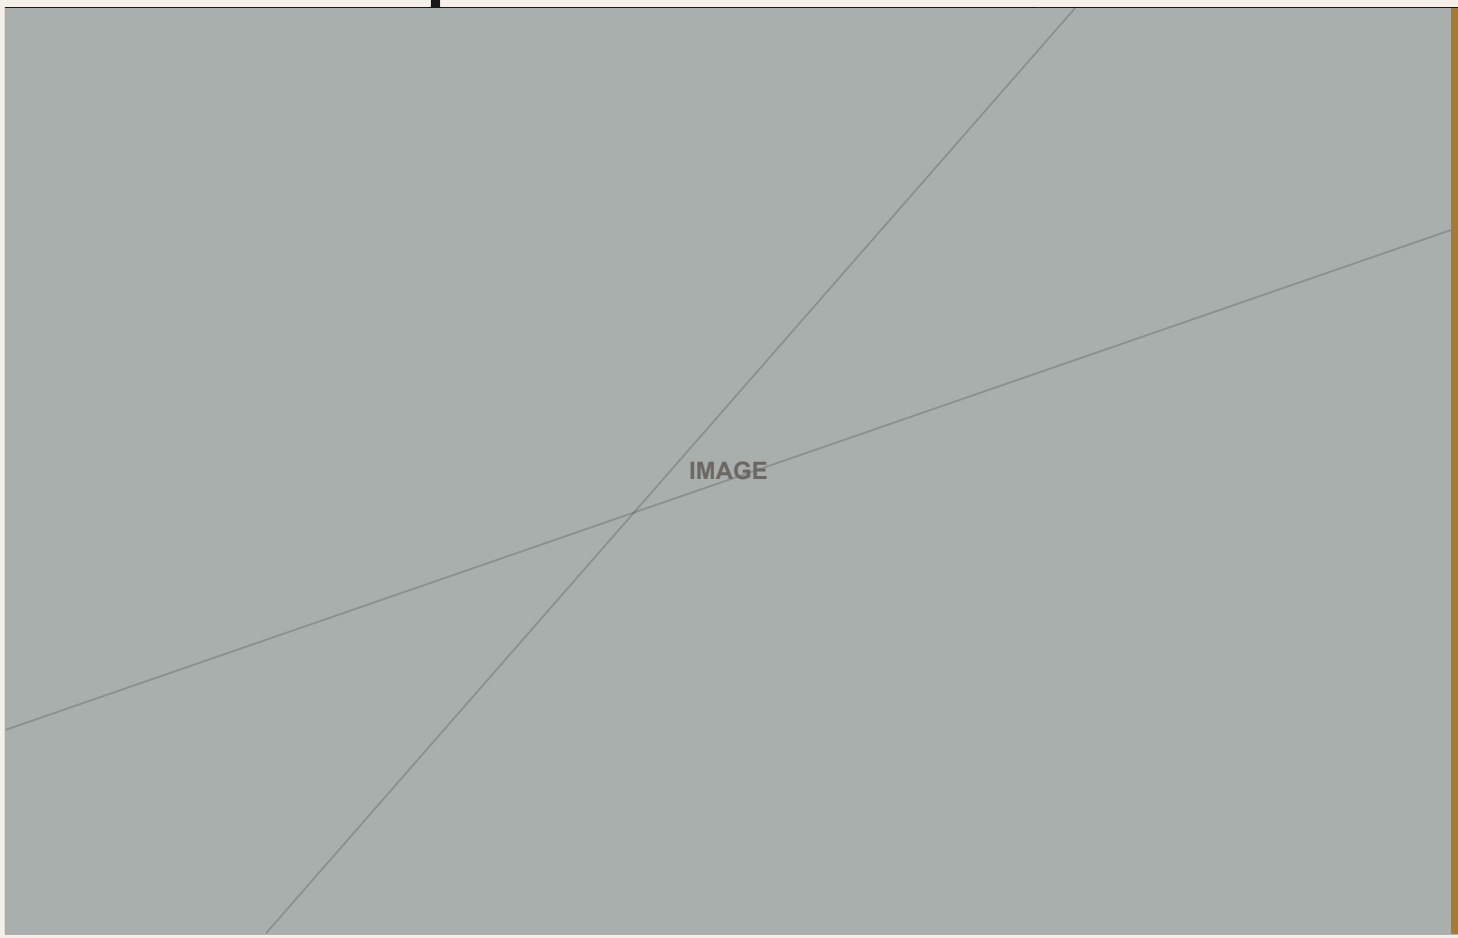

Atelier report or garment anatomy.

FAILURE CHECK

Romantic language replaces actual construction detail.

Silhouette Chapel

70:30

GOVERNING IDEA

A single silhouette is given ceremonial stillness through symmetry and deep margins.

GRID + TYPE

Central 8-column portrait; text below. Didone-style serif + spaced small caps

IMAGE + TEXT

Front-facing full silhouette; tonal backdrop. Title + 100-word interpretation

BEST USE

Couture look or archival gown.

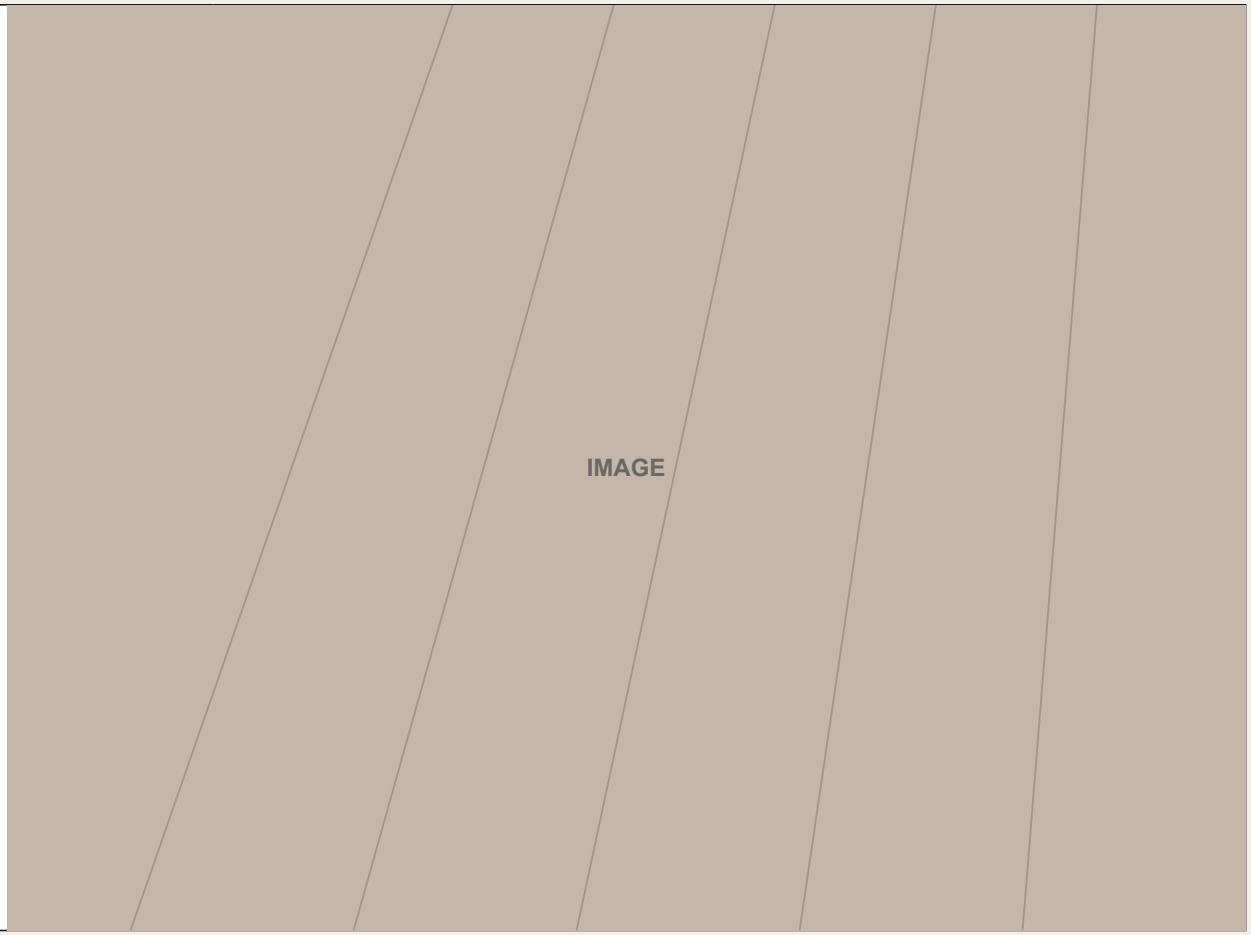

FAILURE CHECK

Symmetry feels static because pose and light lack nuance.

Flou / Tailleur

60:40

01

GOVERNING IDEA

The spread compares softness and structure as two halves of couture practice.

GRID + TYPE

Mirrored 6/6 halves. Serif display; sans technical notes

IMAGE + TEXT

Draped garment opposite tailored construction. Two 150-word columns + shared caption

BEST USE

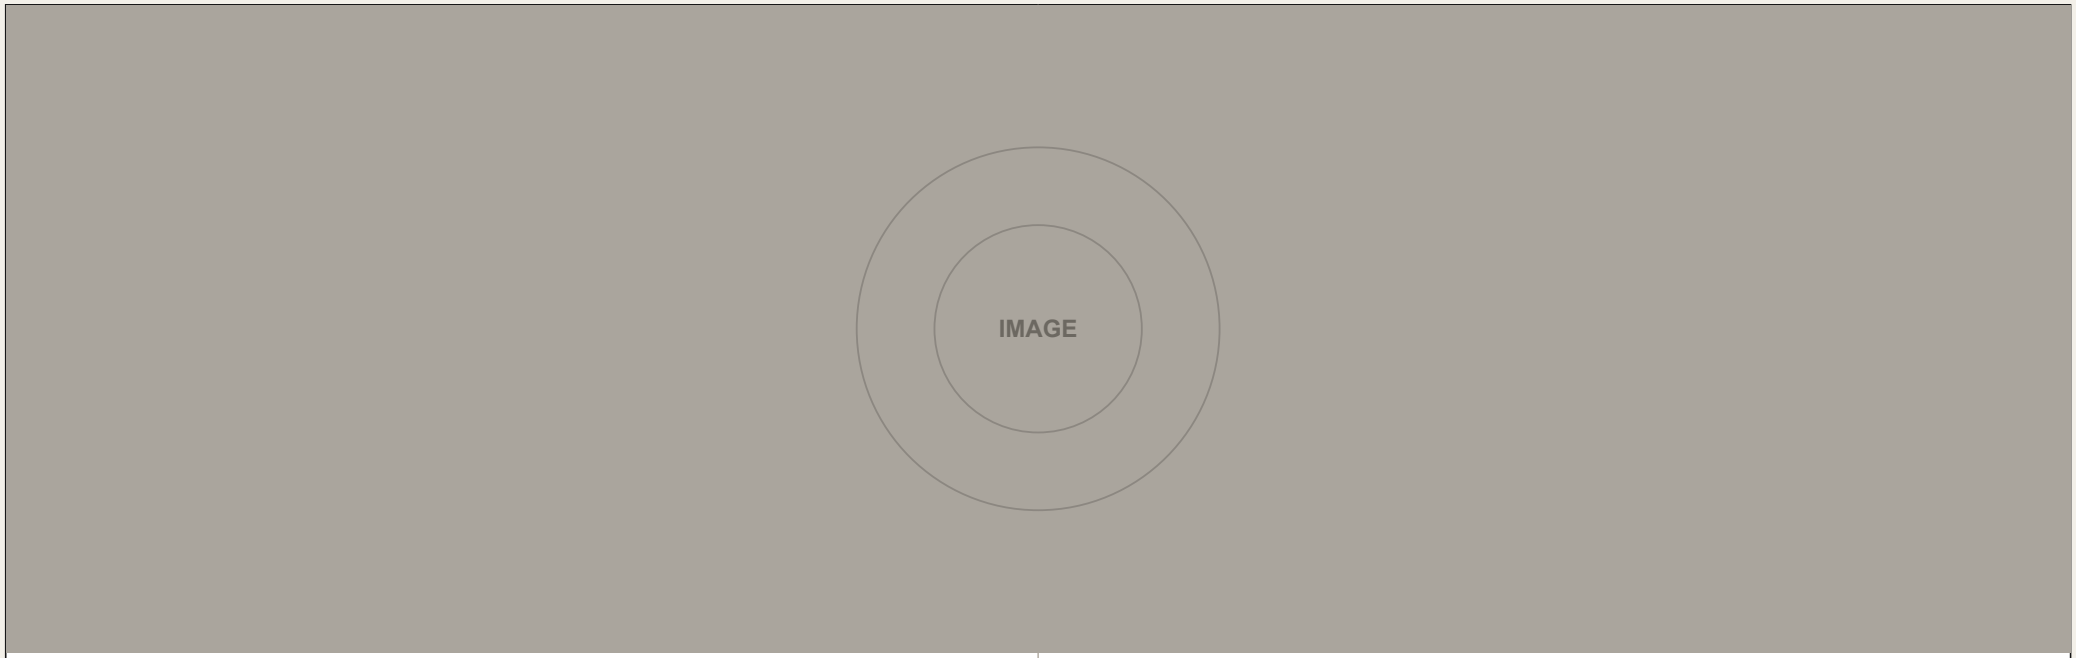

Craft comparison or collection analysis.

FAILURE CHECK

Images are stylistically mismatched beyond the intended contrast.

The Hand

70:30

GOVERNING IDEA

Hands at work become the hero, shifting status from celebrity to maker.

GRID + TYPE

Full-bleed hand/process image + lower note. Humanist serif; tiny caps

IMAGE + TEXT

Hands, needle, fitting, finishing; shallow depth. Maker quote + process caption

BEST USE

Artisan profile or savoir-faire story.

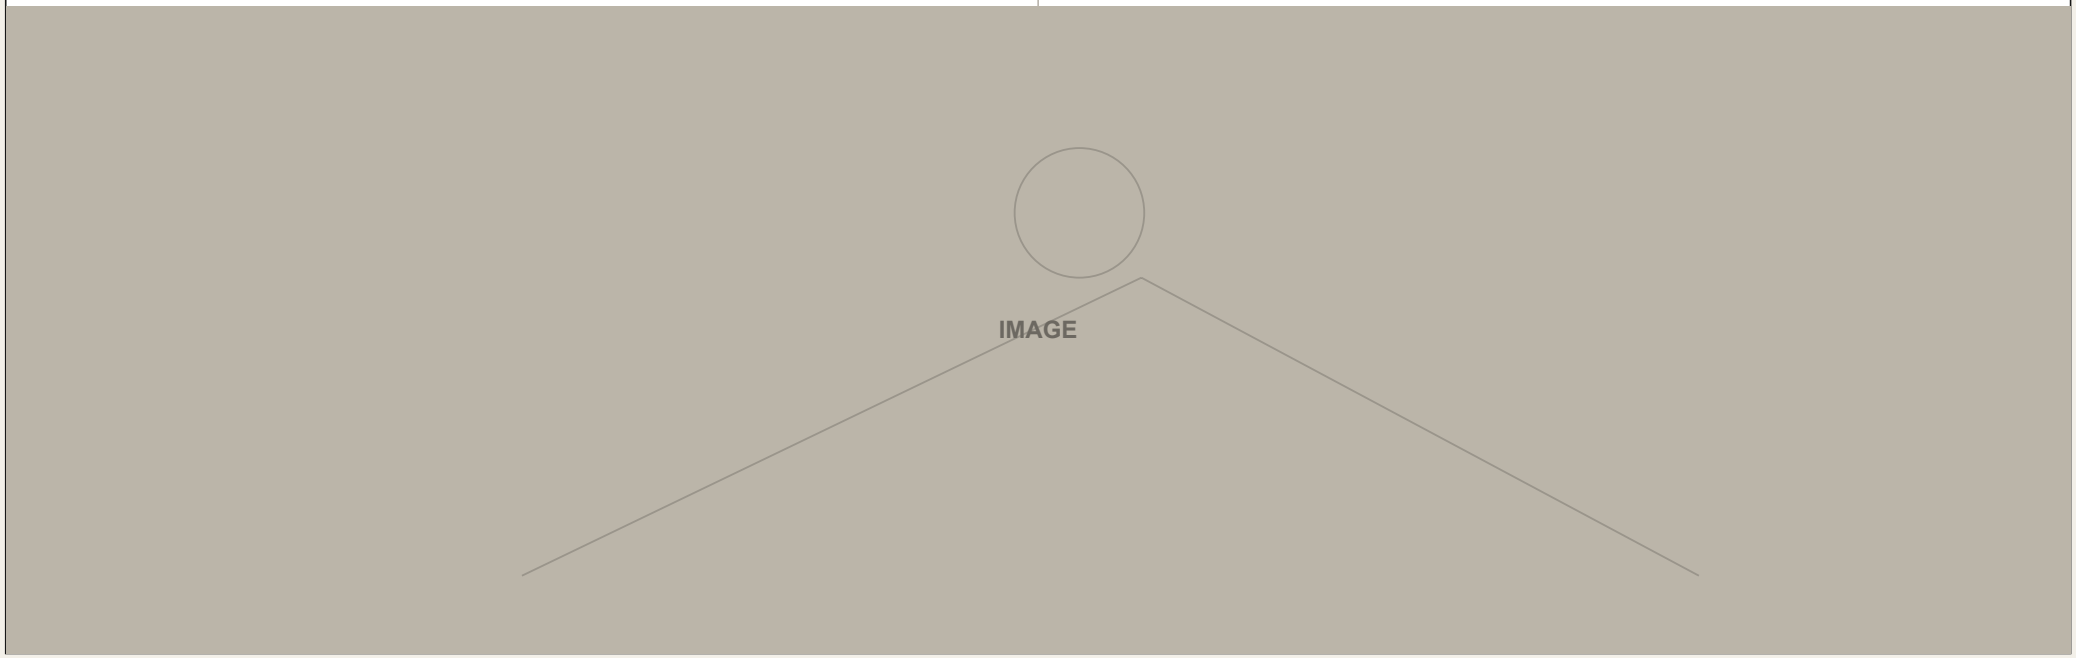

FAILURE CHECK

Hands are generic stock imagery with no identifiable action.

Material Cathedral

70:30

THE FORM

GOVERNING IDEA

An extreme fabric detail reads like architecture, with text functioning as a key.

GRID + TYPE

Macro bleed + slim vertical legend. Compressed sans legend + serif title

IMAGE + TEXT

Texture at near-abstract scale. Material key + 100 words

BEST USE

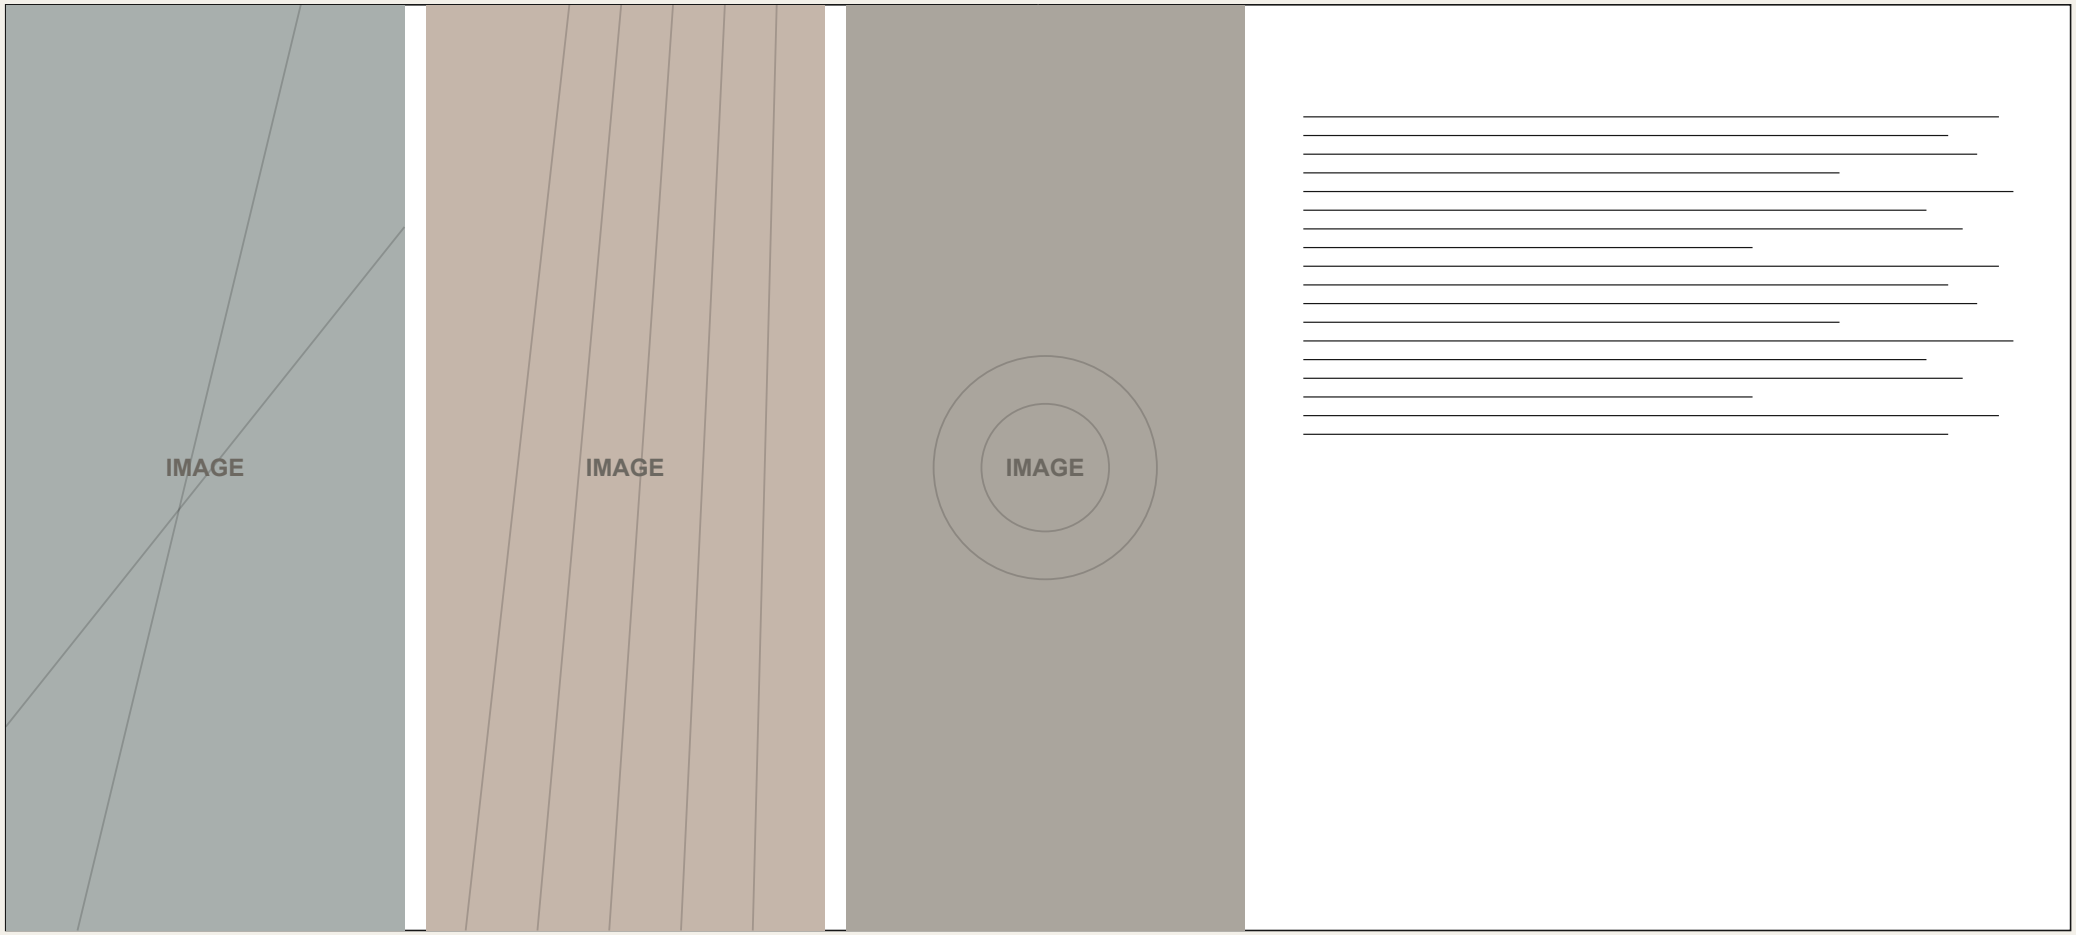

Embellishment or textile focus.

FAILURE CHECK

Crop is so abstract that garment context disappears.

Pattern Room

60:40

GOVERNING IDEA

Pattern pieces, annotations, and one finished look reveal transformation from plan to body.

GRID + TYPE

Document grid: 7 columns evidence, 5 columns result. Mono notes + classic serif

IMAGE + TEXT

Pattern, toile, sketch, finished garment. Numbered explanatory sequence

BEST USE

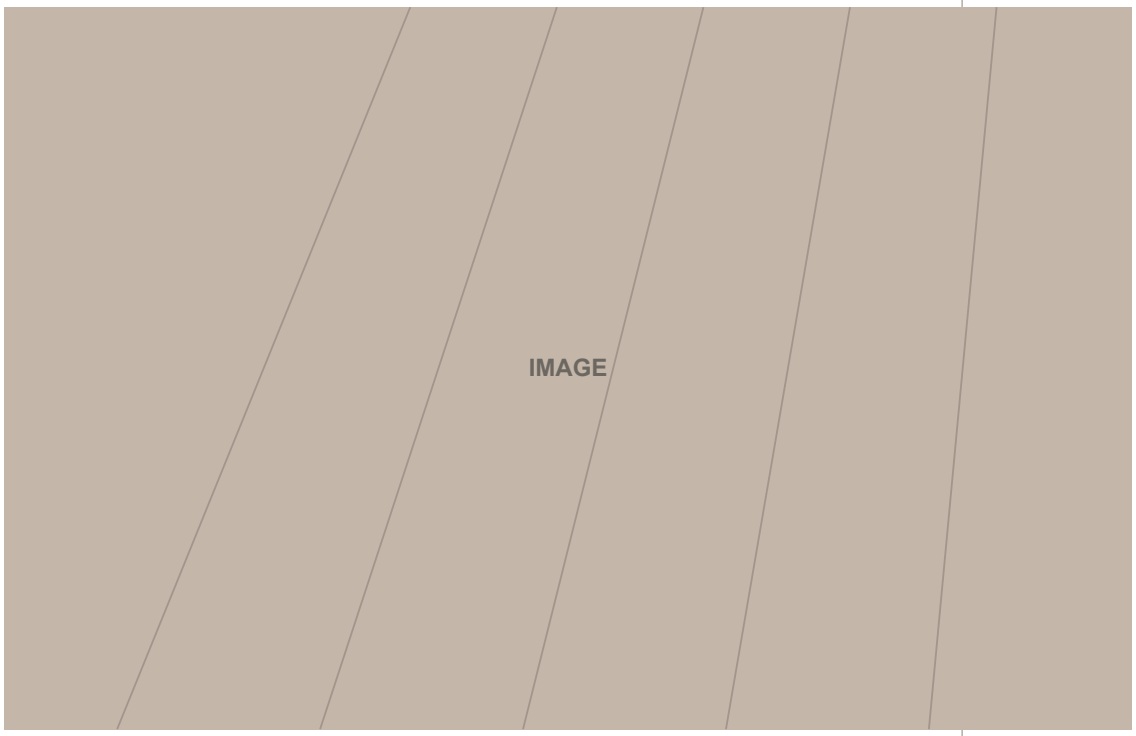

Design-development feature.

FAILURE CHECK

Too many artifacts with no clear sequence.

Procession

70:30

GOVERNING IDEA

A repeated figure becomes a ceremonial rhythm across both pages.

GRID + TYPE

Four equal vertical frames. Small centered serif captions

IMAGE + TEXT

Four steps or turns of one garment. Minimal captions + one paragraph

BEST USE

Runway sequence or garment movement study.

FAILURE CHECK

Timing between frames lacks meaningful progression.

Archive Intervention

60:40

GOVERNING IDEA

Historic evidence and a contemporary response meet without pretending they are the same object.

GRID + TYPE

Archival frame left; contemporary crop right; central note. Period-sensitive serif + neutral sans

IMAGE + TEXT

Clearly labeled archival and new images. Provenance + 220-word comparison

BEST USE

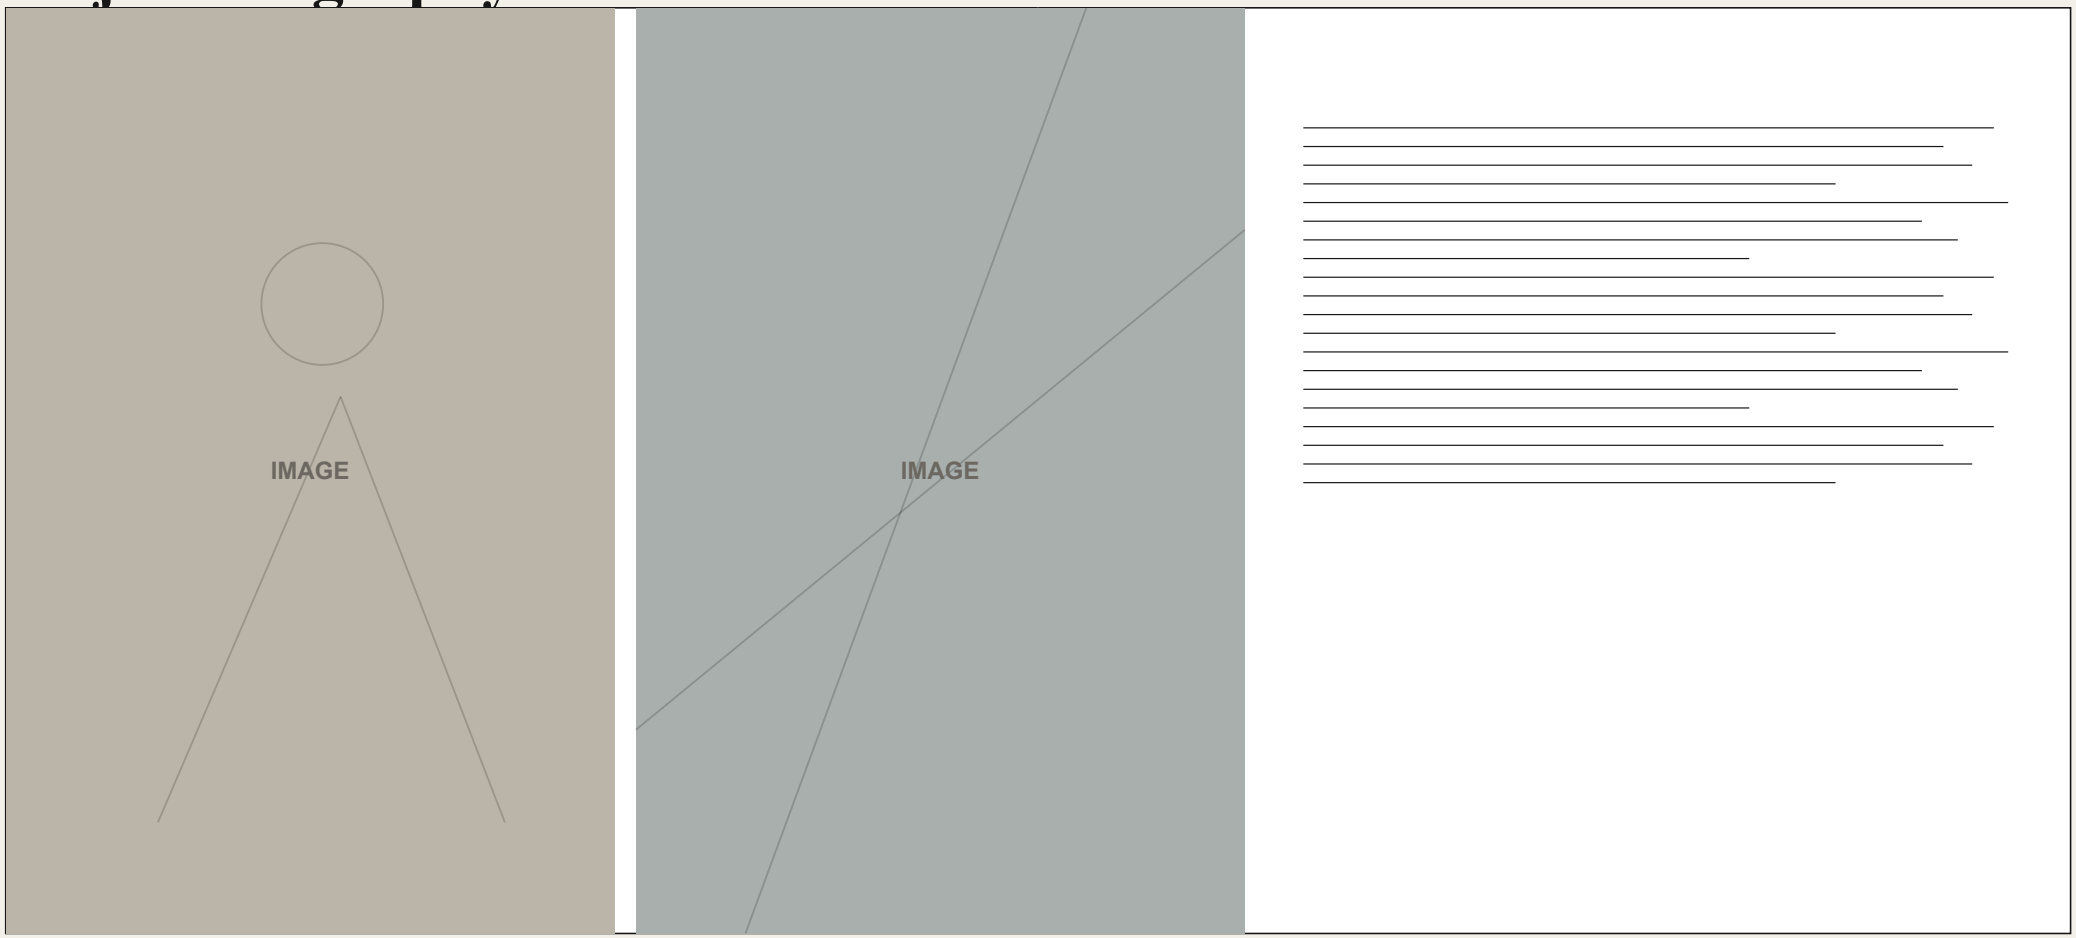

House codes, revival, reinterpretation.

FAILURE CHECK

Unclear dates or credits blur historical truth.

Object Biography

60:40

GOVERNING IDEA

One garment is treated as an artifact with views, detail, provenance, and interpretation.

GRID + TYPE

Hero object + three detail windows. Museum-label typography

IMAGE + TEXT

Front/side/detail; consistent color management. Date, maker, material, ownership, 250 words

BEST USE

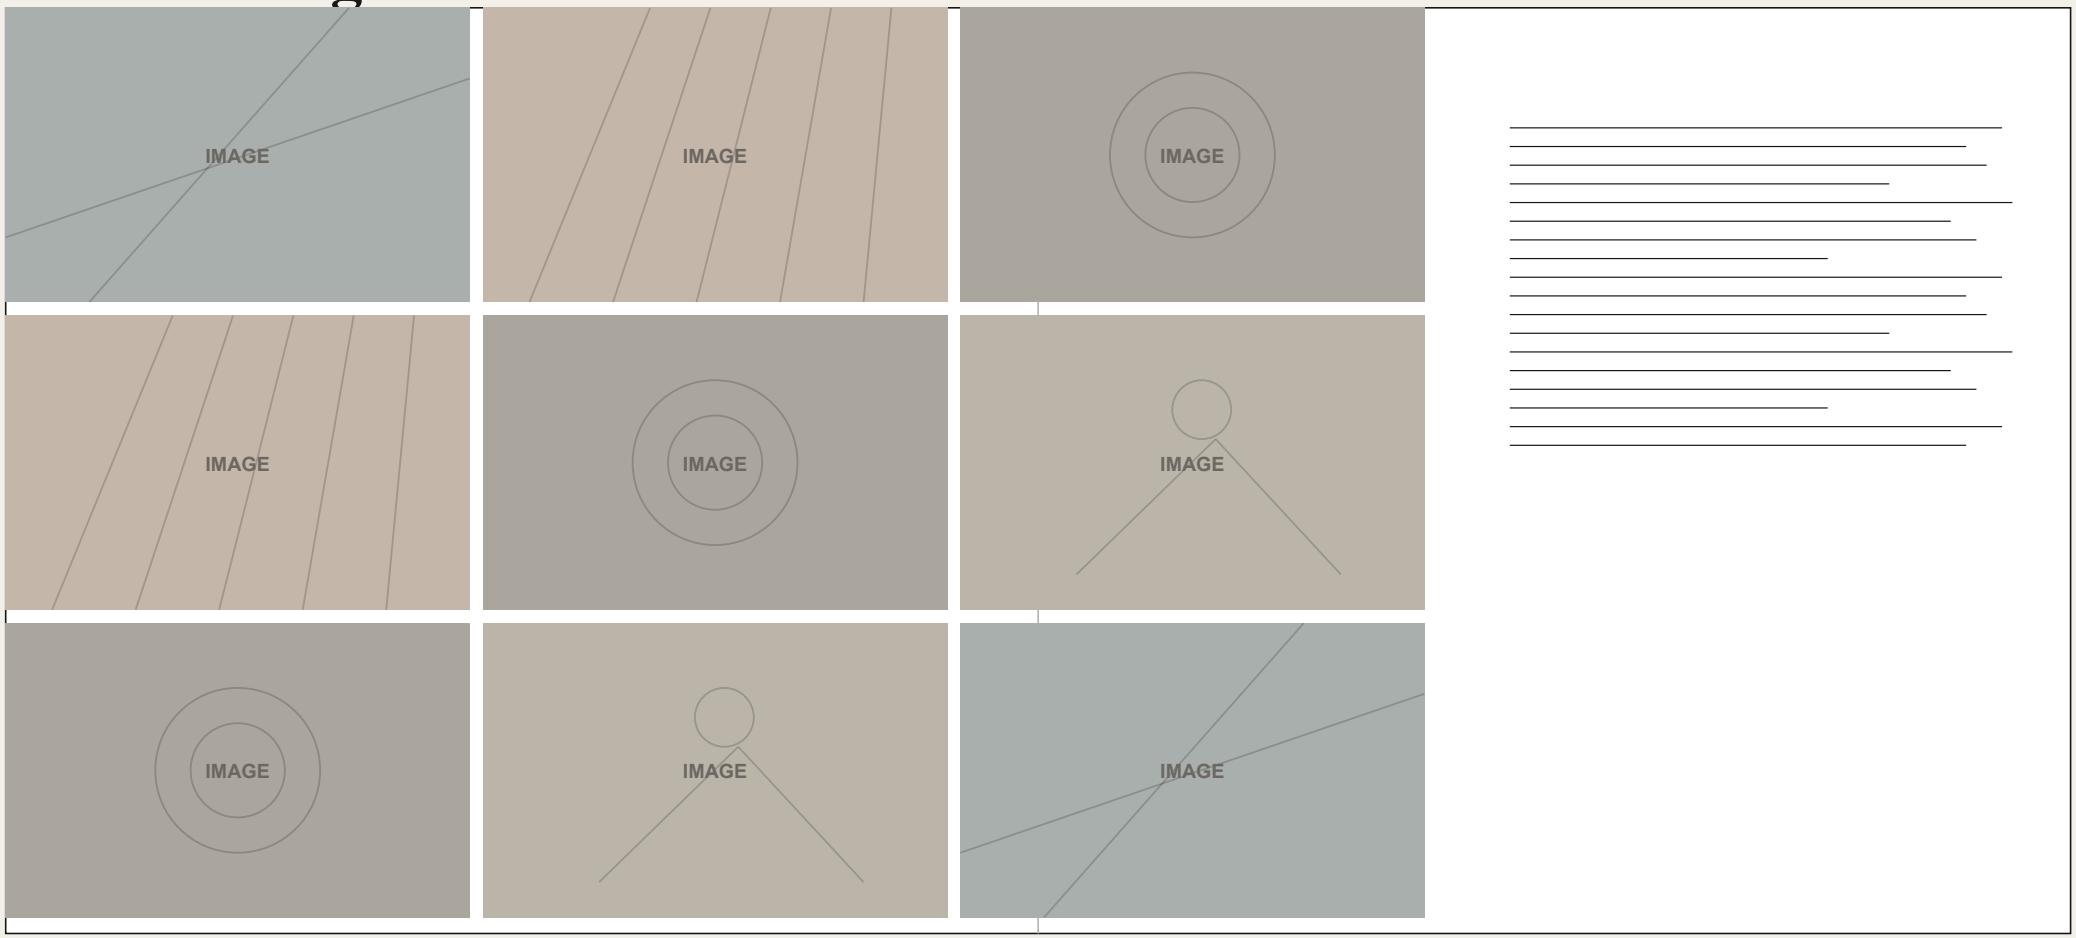

Archive garment or signature accessory.

FAILURE CHECK

The text becomes catalogue data without a point of view.

Final Fitting

70:30

GOVERNING IDEA

A candid fitting image holds the emotional centre while marginal notes retain technical specificity.

GRID + TYPE

Full bleed; notes pinned to outer edge. Loose handwritten accent + clean sans

IMAGE + TEXT

Mirror, pins, assistants, unfinished room. Quote + fitting notes + credits

BEST USE

Backstage closure to a couture story.

FAILURE CHECK

Manufactured candidness feels theatrical.

Estate Portrait

70:30

GOVERNING IDEA

Architecture and sitter share the frame, communicating inheritance through environment rather than logos.

GRID + TYPE

Full-width environmental portrait + lower caption rail. Old-style serif + small caps

IMAGE + TEXT

Natural light, room context, restrained styling. 120-word scene-setter + provenance

BEST USE

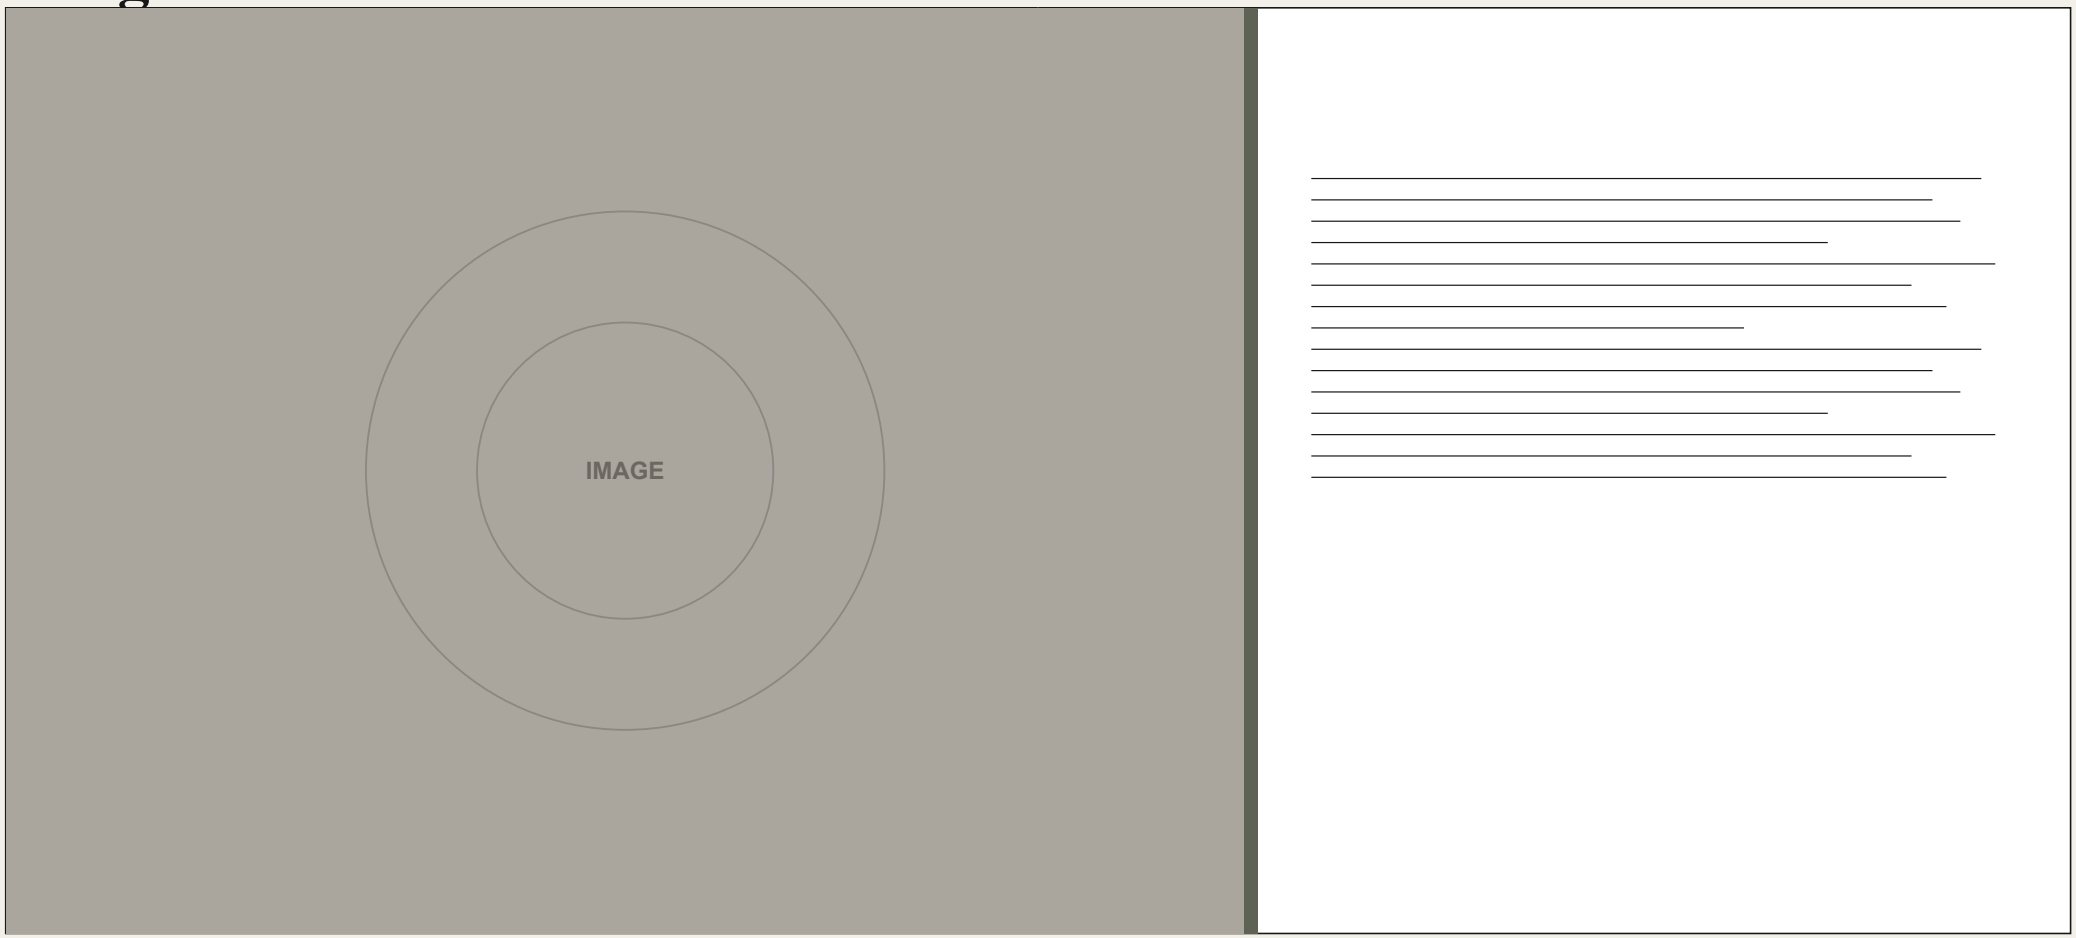

Founder, collector, or family profile.

FAILURE CHECK

Luxury becomes property worship without human character.

Ledger & Likeness

60:40

GOVERNING IDEA

A formal portrait is countered by a dense ledger of dates, objects, and anecdotes.

GRID + TYPE

7/5 split; ruled text panel. Book serif + tabular figures

IMAGE + TEXT

One formal portrait, minimally retouched. Chronology + 180-word biography

BEST USE

Archive profile or house history.

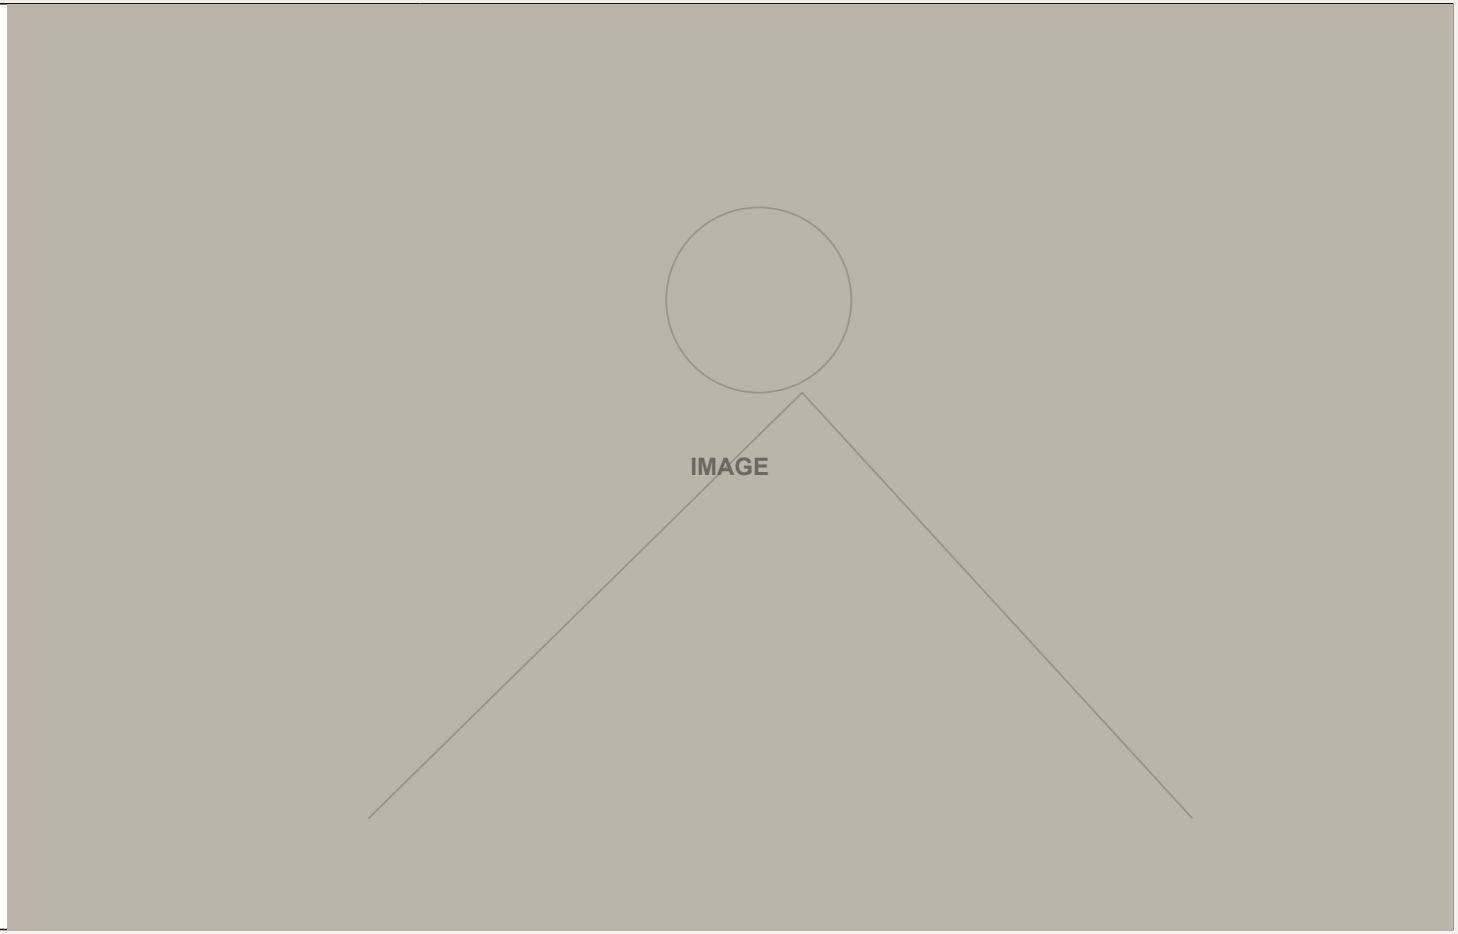

FAILURE CHECK

Chronology becomes trivia without narrative stakes.

Country Weekend

70:30

01

GOVERNING IDEA

A loose sequence of lived-in images makes polish feel inhabited rather than staged.

GRID + TYPE

One large scene + two small details. Warm serif + restrained italic

IMAGE + TEXT

Texture, weather, gestures, personal objects. Diary captions + 100-word note

BEST USE

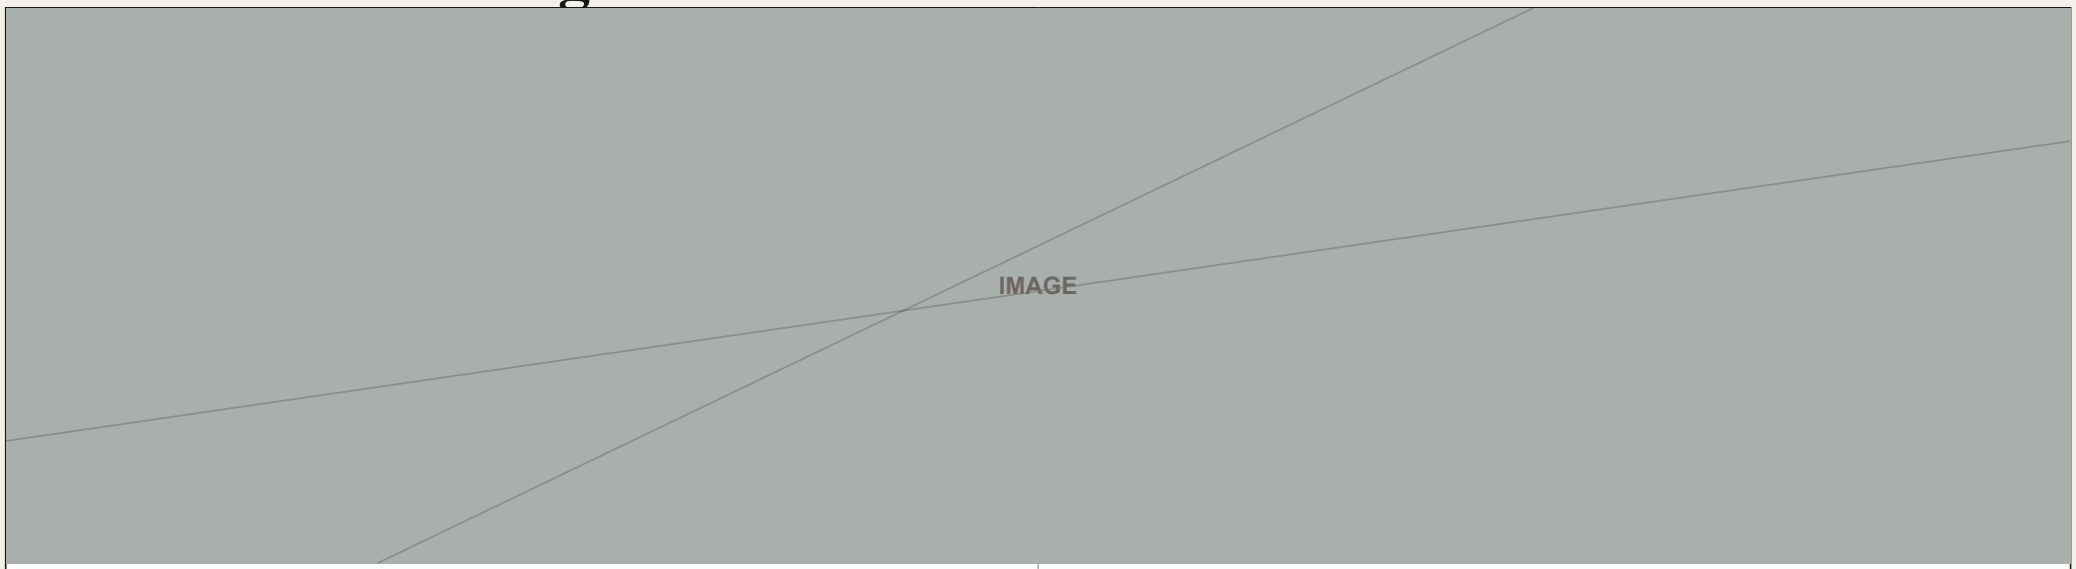

Travel, leisure, seasonal wardrobe.

FAILURE CHECK

Every prop looks newly purchased.

The Provenance Page

60:40

GOVERNING IDEA

Objects earn significance through traceable history, not through ornate styling alone.

GRID + TYPE

Six-object cabinet grid + text register. Small serif + numbered sans labels

IMAGE + TEXT

Consistent object photography. Maker, date, material, owner, story

BEST USE

Accessories, watches, trunks, textiles.

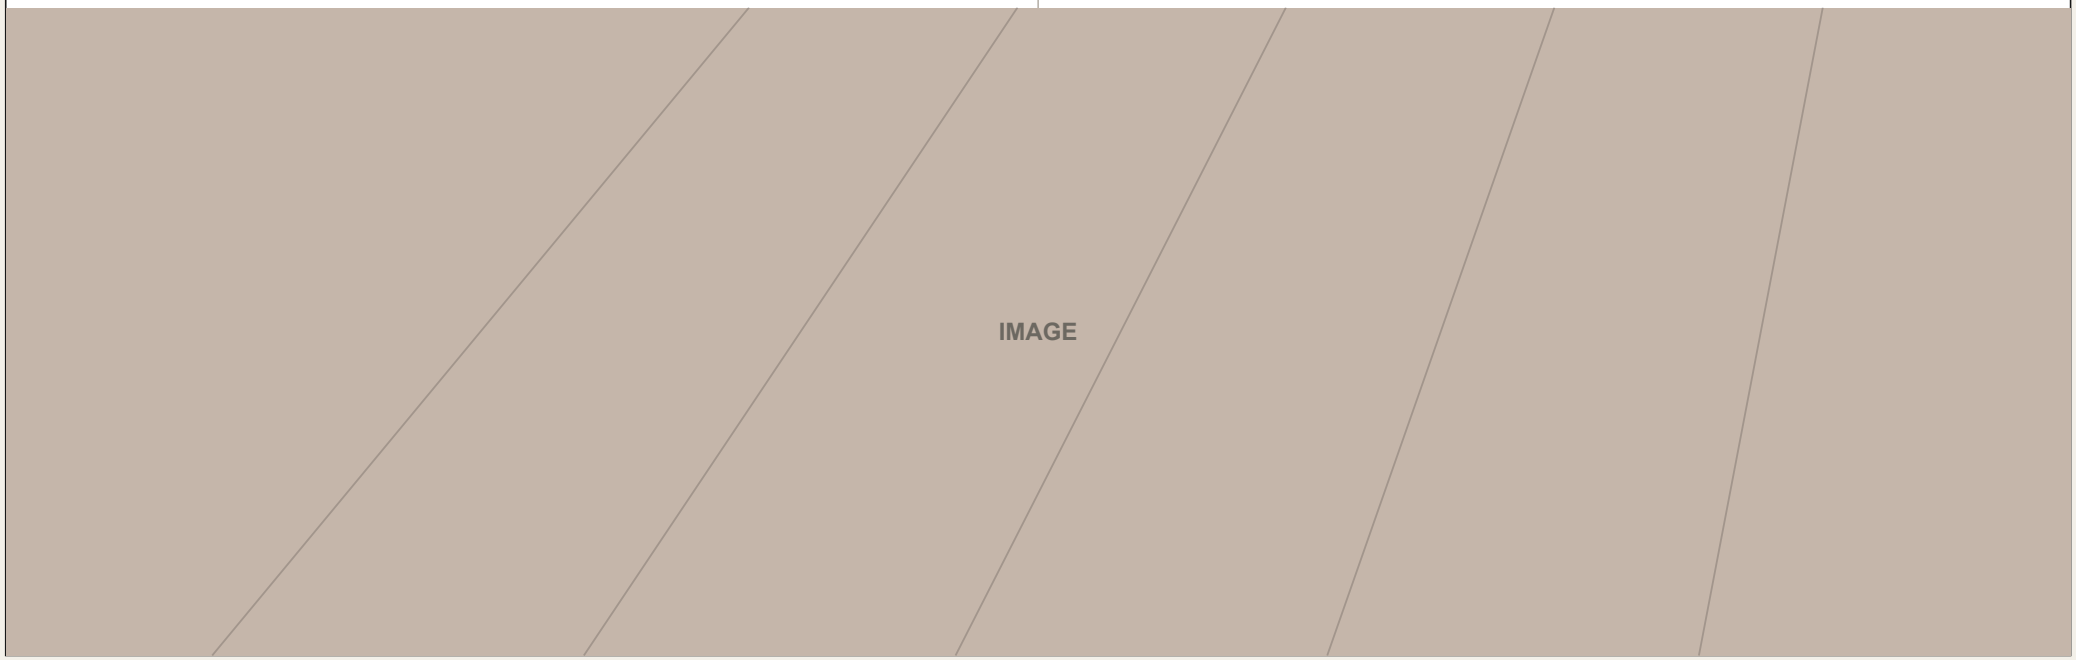

FAILURE CHECK

Claims of age or ownership are unverified.

Salon Pairing

70:30

THE FORM

GOVERNING IDEA

Two images converse across the gutter like paintings hung in a private room.

GRID + TYPE

Matched 5-column frames with central air. Centered serif title; minimal caption

IMAGE + TEXT

Harmonized palette and eyeline. Two captions + 90-word bridge

BEST USE

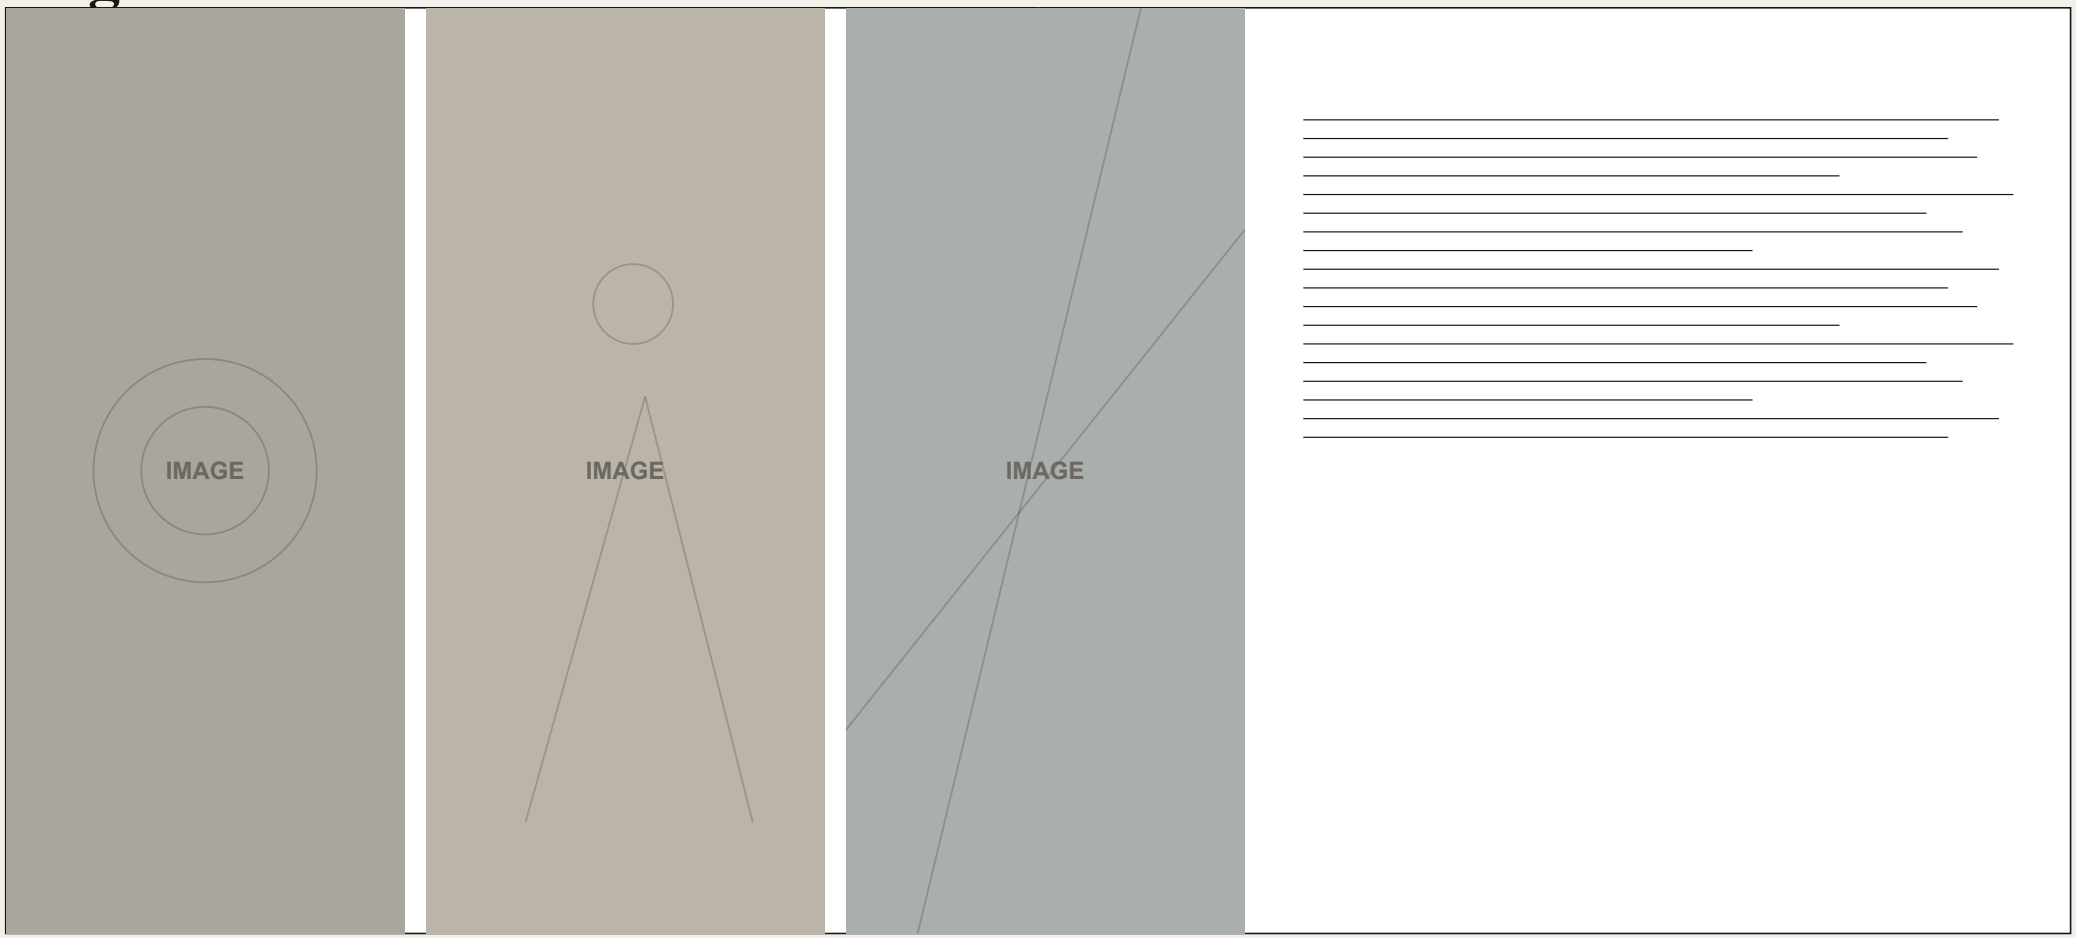

Portrait diptych or then/now pairing.

FAILURE CHECK

Pair lacks a conceptual relationship.

Engraved Modern

60:40

GOVERNING IDEA

A contemporary fashion image adopts the scale and framing of a fashion plate, not a fake antique filter.

GRID + TYPE

Framed figure + 5-column commentary. Transitional serif + italic caption

IMAGE + TEXT

Full figure, pale field, precise outline. 250 words + garment notation

BEST USE

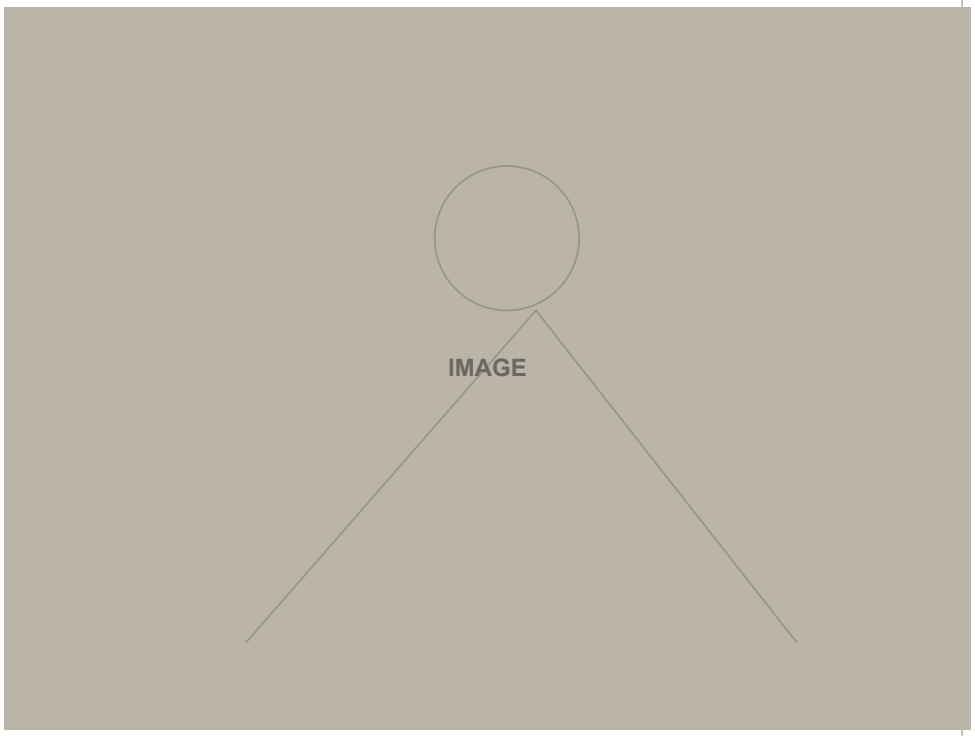

Historical influence feature.

FAILURE CHECK

Sepia effects substitute for historical thinking.

Library Table

60:40

GOVERNING IDEA

Documents, swatches, books, and photographs create an evidence-rich tabletop narrative.

GRID + TYPE

Overhead image 60%; four-note band 40%. Bookish serif + mono references

IMAGE + TEXT

Flat lay with real hierarchy and provenance. Four annotated notes + short thesis

BEST USE

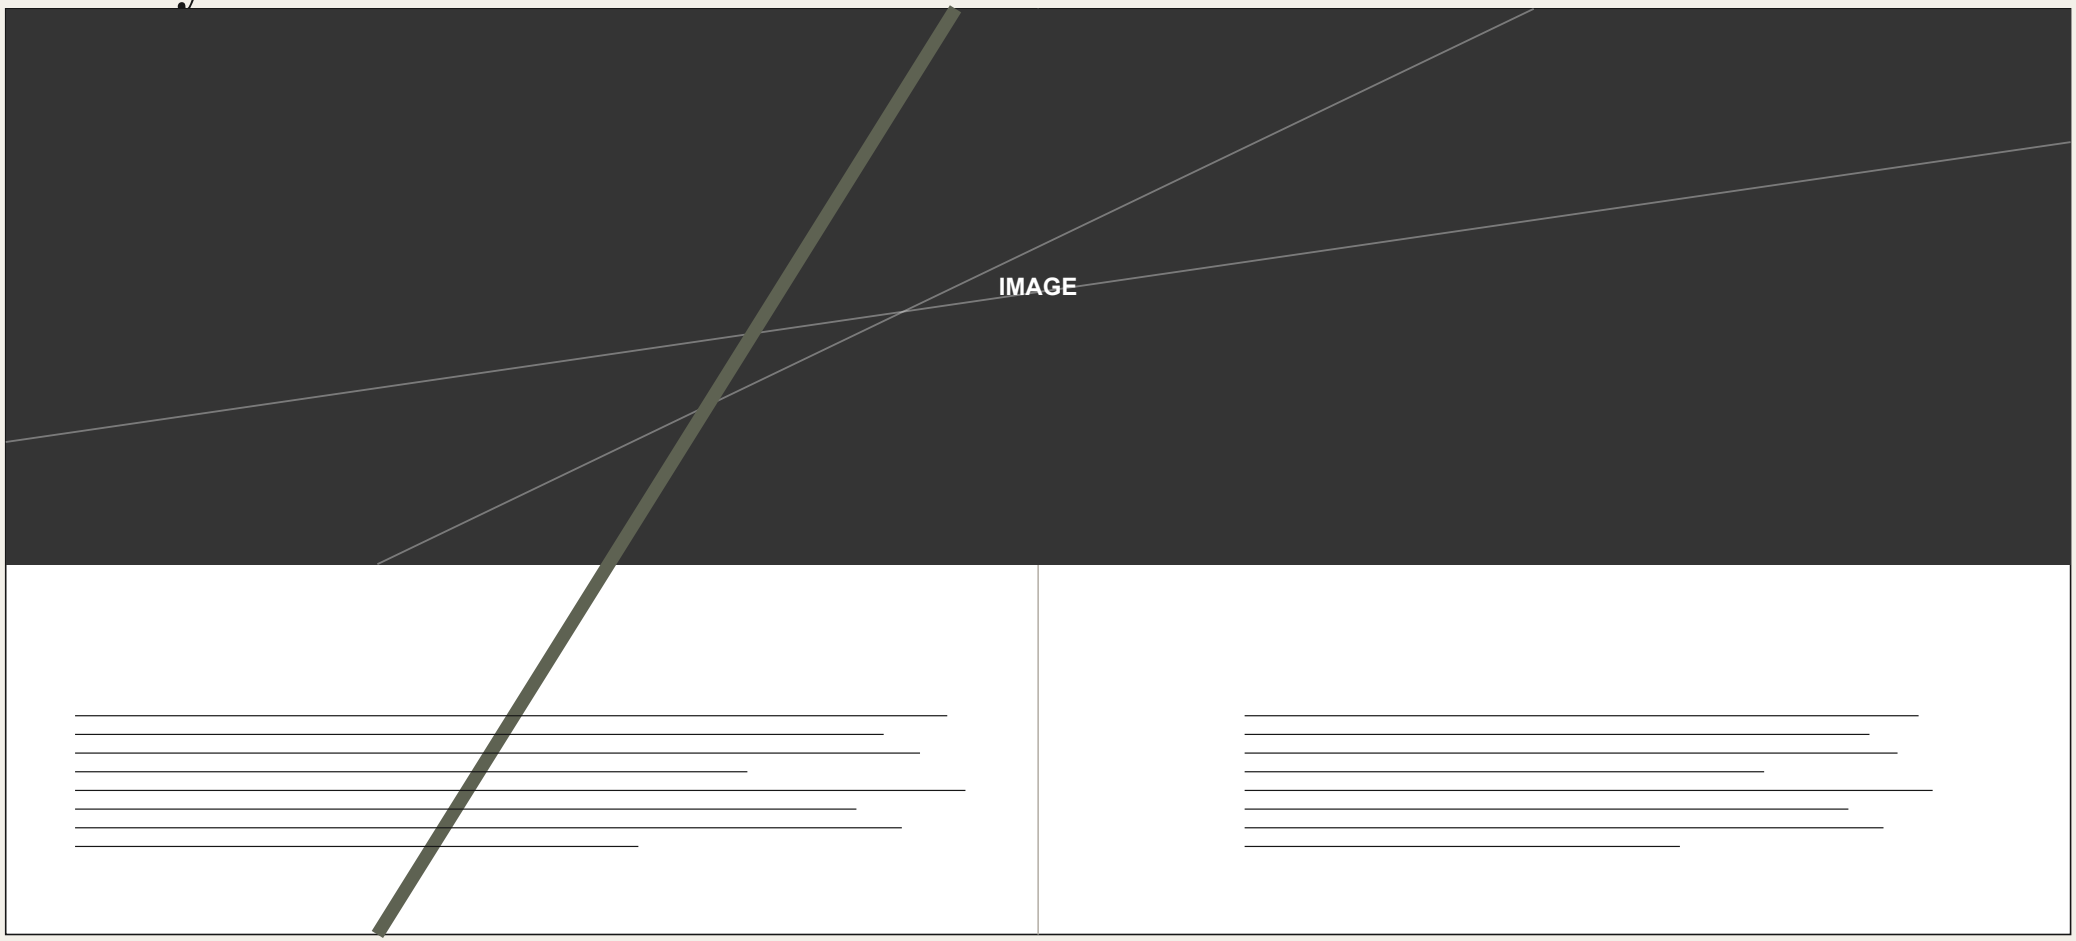

Research, archive, mood, influence.

FAILURE CHECK

Flat lay is decorative and sources are unidentified.

Society Column Recut

60:40

GOVERNING IDEA

A traditional multi-column page is interrupted by a decisive modern crop.

GRID + TYPE

Five text columns; image occupies three. Classic newspaper serif + bold sans caption

IMAGE + TEXT

One candid social image with real action. 300–380 words + names

BEST USE

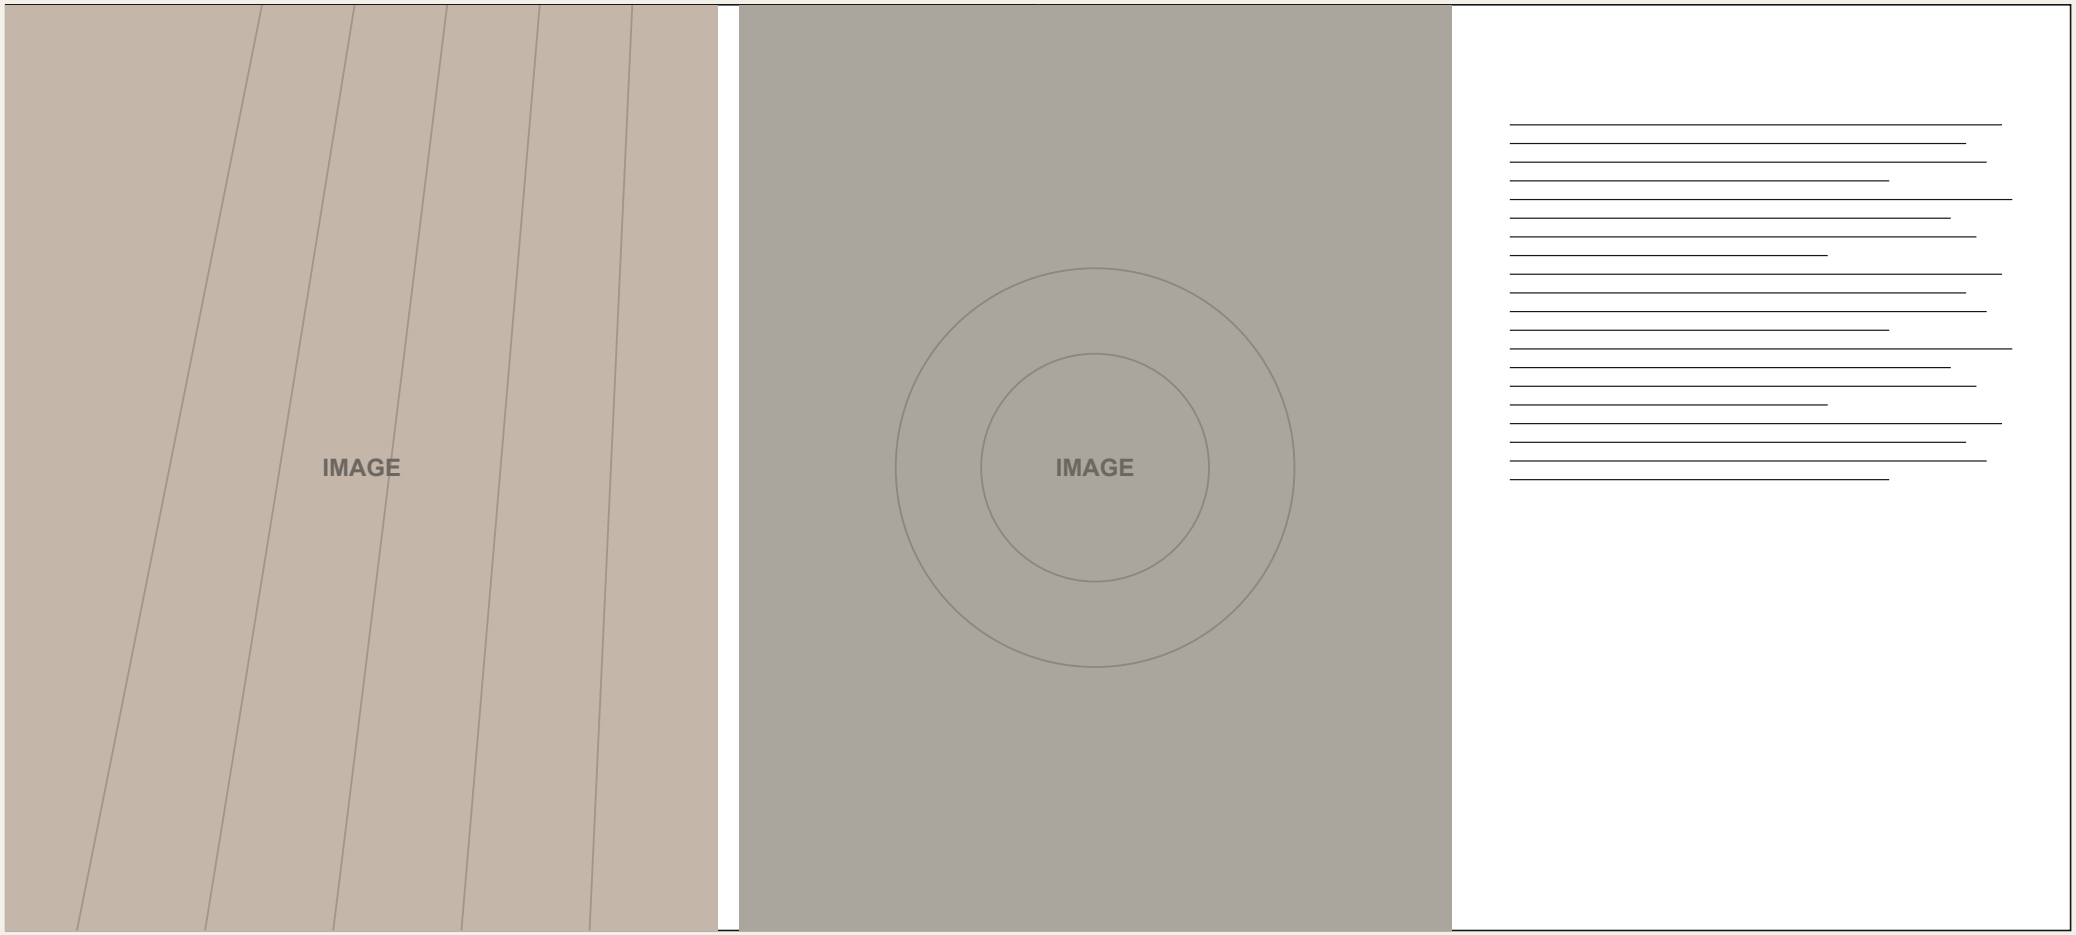

Event report or community chronicle.

FAILURE CHECK

Names and relationships are unclear.

Patina

70:30

GOVERNING IDEA

Wear, repair, and age become the visual subject, reframing old-money codes as stewardship.

GRID + TYPE

Macro image field + narrow essay. Soft serif + utilitarian labels

IMAGE + TEXT

Repairs, creases, worn leather, mending. 150-word ownership story + care notes

BEST USE

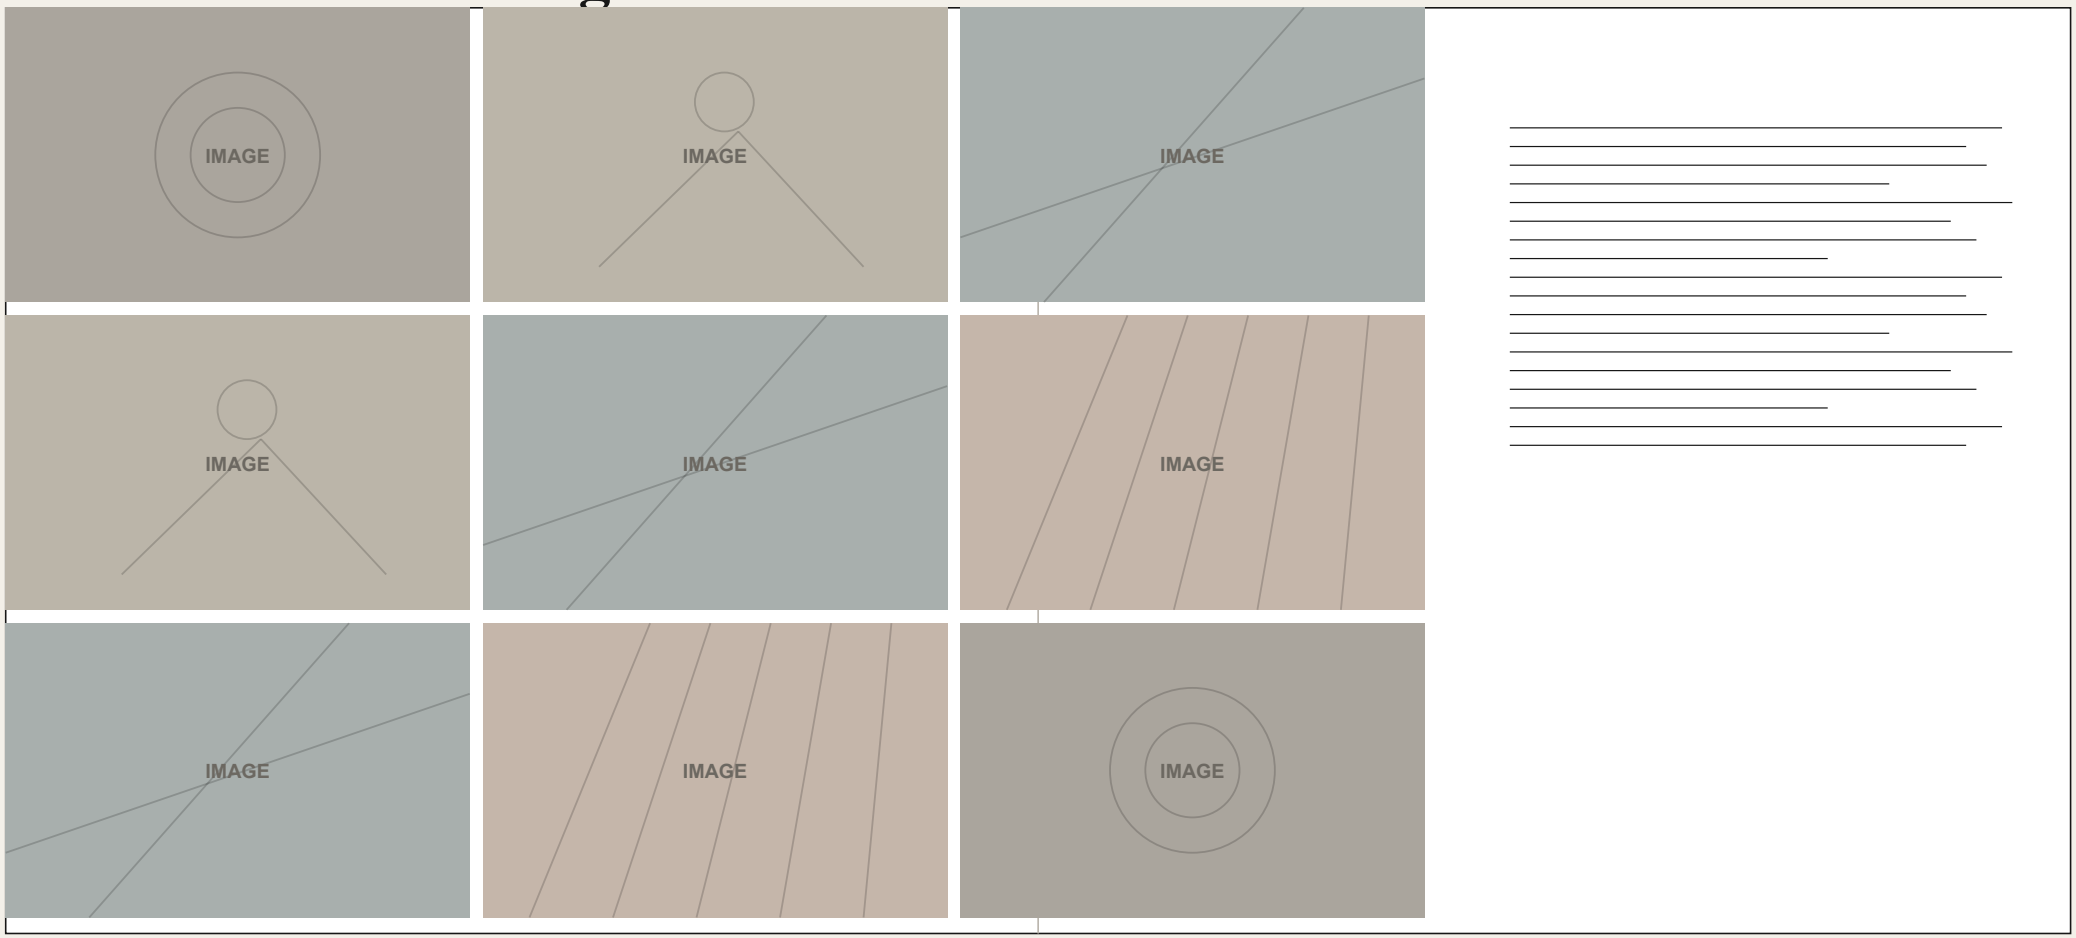

Heirloom or sustainability feature.

FAILURE CHECK

Artificial distressing undermines authenticity.

Generational Closing

70:30

GOVERNING IDEA

Two generations share one spatial system, ending the issue on continuity rather than nostalgia.

GRID + TYPE

Two portraits + final text rail. Serif names + sans body

IMAGE + TEXT

Related gestures, objects, or garments across ages. Closing reflection + credits

BEST USE

Issue finale or brand legacy statement.

FAILURE CHECK

The younger subject is framed only as an accessory to the elder.

IMPLEMENTATION

Build the rhythm before decorating it.

DOCUMENT

A4 portrait pages (210 × 297 mm) or chosen trim; facing pages on; 3 mm bleed; inside margin 16–20 mm depending on binding.

GRID

Start with 12 columns per spread, 4–5 mm gutters, and a 4 mm baseline. Break the grid only when the story gains meaning.

TYPE

Use one expressive display family, one highly readable text family, and one utility face at most. Body target: 9–10 pt / 12–14 pt.

IMAGES

Place at 300 ppi at final size; use CMYK profiles agreed with printer; protect faces, hands, garment closures, and credits from the gutter.

RATIO

Measure the whole spread: image area versus all text-bearing area. Negative space belongs to whichever function it serves, not automatically to imagery.

PACING

Avoid ten consecutive 70:30 hero spreads. Alternate monument, sequence, evidence, conversation, and pause.

CREDITS

Create paragraph styles for photographer, stylist, grooming, talent, garments, archive/source, and rights. Credits are content, not debris.

PROOF

Print at 100%, fold, and pin to a wall. Test reading distance, gutter loss, black density, image sequence, and whether every spread has one dominant move.

SEQUENCE

A 96-page rhythm using the system.

01–12	ARRIVAL	01, 05, 11	High-impact openers; few words; establish KLAT's point of view.
13–28	PEOPLE	13, 16, 31	Documentary portraiture and conversation; increase reading density.
29–46	DESIRE	02, 04, 06, 08	Primary fashion portfolio; alternate scale, motion, and stillness.
47–62	THE HAND	21, 24, 26, 29	Couture/process section; make labour and material legible.
63–80	INHERITANCE	32, 34, 36, 39	Archive and heritage; slow the tempo and deepen provenance.
81–96	RETURN	18, 27, 40	Contemporary re-entry, procession, and generational close.
