PROFESSIONAL SUMMARY

Senior graphic designer and art director with 7+ years building brand systems, campaign creative, and layout design for fintech, FMCG, aviation, and health-tech brands across Nigeria and the U.S. Expert in Figma, Adobe Illustrator, Adobe InDesign, and Adobe Photoshop, with strengths across brand design, graphic design, packaging design, and infographic design. I lead and mentor design teams, partner closely with cross-functional stakeholders, and draw on culture and lived experience to craft work that resonates with audiences and drives measurable brand results.

WORK EXPERIENCE

Marketing Designer, Rise

July 2025 – Present | Hybrid, Nigeria

- In-house designer for six Marketing sub-teams (Growth Marketing, Product Marketing, Content, Social Media, Community, Events), owning brand and campaign visual output end-to-end for a fintech serving 800,000+ users.
- Ship 40+ creative assets per month across paid, organic, email, and print in Figma and Adobe Creative Suite, holding a single visual standard across all six teams.
- Design campaign layouts, social graphics, and infographics in Adobe Illustrator and InDesign that turn product and growth data into clear, on-brand visual stories.
- Building an AI-powered ad-effectiveness tool that applies open-source eye-tracking data to predict visual attention, validating that every ad directs viewer focus to its intended hotspots.

Creative Design Executive, Anakle

February 2025 – November 2025 | Hybrid, Nigeria

- Led a team of 4 designers delivering a full quarter of social campaign creatives (50 assets) for a major FMCG brand, setting layout and visual-consistency standards across every deliverable.
- Directed the end-to-end rebrand of a fixed-base operator (FBO) in the Nigerian aerospace sector (May–September 2025), from brand strategy through identity-system delivery using Figma and Adobe Illustrator.
- Art-directed pitch creative that won new business for the agency, including the Spotify, InDrive, and Access Bank accounts.
- Reviewed and mentored the design team's output to maintain one creative direction and a consistent brand voice across all campaign assets.

Visual Designer, Rivo Studios

June 2024 – November 2024 | Remote, Nigeria

- Designed the brand's visual system in Figma and served as its guardian — the single point of accountability for visual consistency across product and marketing.
- Led design and final production of critical print collateral (brochures, product booklets) in Adobe InDesign and Illustrator, owning the press-ready handoff.
- Partnered with Product and Marketing teams to keep every product and marketing touchpoint on brand and aligned to business goals.
- Built reusable layout templates and design components that sped up production and kept output consistent across the studio.

Brand Designer, Grey Finance

October 2022 – February 2023 | Remote, U.S.

- Designed campaign assets and marketing materials in Adobe Illustrator and Photoshop, driving brand awareness across multiple markets for a cross-border financial product.
- Developed a brand pattern system still in production use 3+ years later as part of the brand's visual expansion.
- Produced a branded e-book on remote job sources used as a lead-generation asset to amplify product reach.
- Collaborated with marketing stakeholders to align creative decisions with brand and business objectives.
